stated that hundreds of "The Network's" petitions have been distributed for individual address to Federal legislators urging continuation and strengthening of the HCUA.

[redacted] stated that the "Committee Against U.S.A. Surrender" has issued two thousand printed forms, as attached, and has demand for more, urging Congressmen and Senators that their constituents oppose the announced exchange visits of NIKITA KHRUSHCHEV and DWIGHT EISENHOWER. Such exchange, according to this literature, lowers the resistance of U.S. citizens to Godless International Communism; impresses non-committed countries that 'hot-nobbing' with the enemy is accepted behavior; flaunts the captive nations that we have forsaken them; brings couriers into the U.S. with orders for U. S. Communists and their dupes; discards the historic example of the U.S. as a moral force; and signifies the apparent desire of the U.S. for peace at any price--fantasium in the Soviet's definition of 'peace' to virtual surrender by the U.S.A. ✓

This literature of the "Committee Against U.S.A. Surrender" urges that U.S. citizen behavior, as recommended by President EISENHOWER, 'be polite' during KHRUSHCHEV's visit, but suggests that KHRUSHCHEV be welcomed with memorial services in all Churches that take a stand against Communism, with prayers for those tortured and exiled, and prayers for the captive nations. The literature suggests that the official itinerary be lined with rows of empty coffins, marked with the statistics of those murdered and imprisoned for each of the fourteen captive nations. The literature also recommends for citizens who might be caught in the line of procession of the KHRUSHCHEV party, that they turn their backs to it. Other similar suggestions are offered, and the 'Committee' recommends that groups be set up in the pertinent cities to effect these suggestions.

Los Angeles files show that [redacted] was in communication with the Bureau on another matter involving one [redacted] on 4/19/52. There are no other references to [redacted] or "The Networks," or "Committee Against U.S.A. Surrender" in Los Angeles files.

COMMITTEE AGAINST U. S. A. SURRENDER  
P. O. BOX 73

SUGGESTS

To all who view with dread and dismay the invitation and arrival on our shores of one, Nikita Khrushchev, the "Butcher of Budapest", the "Hangman of the Ukraine", the "Murderer of our Air-men", the "Jailer of thousands of Americans", the "Assassinator of the Katyn Forest", the breaker of all agreements and treaties,-----  
THE CZAR ABSOLUTE-----

HEAR YE

WHEREAS, the Reds will not risk war over any piece of real estate due to the unreliability of its own and its satellite armies, and due to the common hatred held for the regime by its oppressed, and

WHEREAS, the only barrier between Moscow and Washington today is that the Soviets want unconditional surrender, and

WHEREAS, firmness by the West will alone save the world from another war, and

WHEREAS, the leaders of the Kremlin need no visit to America to learn the state of our socialization, as they have been thoroughly briefed by their couriers and agents during these many years of unrestrained subversion, and

WHEREAS, we Americans now have no recourse but to be polite, (in our fashion) to the visitor our President has invited to our country, therefore,

BE IT RESOLVED, that we will welcome him with Memorial Services in all the Churches that have taken a stand against the Communist conspiracy, with prayers for those who have been tortured and exiled in years past, for those who will suffer if we surrender to his kind of PEACE, with special prayers for all captive nations.

BE IT RESOLVED, THAT in all the cities on his itinerary, a splendid greeting will be prepared for him, in the form of a long line of HEARSEs, placarded with the statistics of the number of persons murdered or imprisoned from each of the 14 captive countries in recent years, and also

BE IT RESOLVED, that those Americans caught on the streets in the line of the Khrushchev parade, do turn their backs on this TWENTIETH CENTURY TYRANT.

AMERICAN PATRIOTS, establish in your city a committee of welcome to Nikita Khrushchev, in the manner described above, and work unceasingly to publicize and prepare this welcome, in time for his arrival.

THE COMMITTEE

Khrushchev is COMING!

Our President is GOING!

Our great Nation is little by little SURRENDERING

The headlines proclaim: "President in Dramatic Act to Aid Peace". What does peace mean to our enemy? Peace according to Lenin, Stalin and Khrushchev means, "a state of affairs under which there is no opposition to Communism". Is this surrender the kind of "peace" YOU want?

This is truly a non-partisan issue; it is an AMERICAN issue! Won't you get on your good ole American high-horse and join with us by protesting to your elected representatives so that they will know how their constituents really feel?

Please check any or all of the items you feel express your views, clip along dotted lines and send to each of your two senators and your congressman.

Honorable \_\_\_\_\_

Congressman

House Office Building  
Washington 25, D. C.

The Khrushchev - Eisenhower exchange visit:

- \_\_\_ 1. Lowers resistance to Godless International Communism by our own citizens.
- \_\_\_ 2. Gives the impression to non-committed nations that "hob-nobbing" with the enemy is accepted behavior.
- \_\_\_ 3. Flaunts in the faces of captive nations the idea that we have turned our backs on them and now entertain their jailkeepers.
- \_\_\_ 4. Brings in couriers with orders for the 2,250,000 Communists and their dupes active in the United States (F. B. I. figure) and countless trained espionage agents traveling with Khrushchev's entourage.
- \_\_\_ 5. Shouts to the world that our great moral example has been cast aside to entertain infamous criminals and murderers.
- \_\_\_ 6. Shows unrealistic judgement of enemy and stupidity of United States foreign policy resulting in loss of respect for us by other nations.
- \_\_\_ 7. Compares to inviting your neighbor who is \_\_\_\_\_ into your home \_\_\_\_\_

A confidential source, who has furnished reliable information in the past, advised on August 28, 1959, that the above group has had printed or ordered printed 7,000 copies of a sheet "Cry, Oh Beloved Country! Cry for Your Tortured and Imprisoned Sons!" protesting KHRUSHCHEV's announced visit to the United States and his "privilege of gaining respectability by our President's invitation". The sheet urges demonstration of mourning on the day of visit, church memorial services for "abandoned" U.S. soldiers, and similar expressions.

The instant group is identical, according to source, with "The Network", the "Network of Patriotic Letter Writers", "Patriotic Letters", Box 2003D, Pasadena, California.

# ***Cry, Oh Beloved Country!***

## ***Cry For Your Tortured and Imprisoned Sons!***

MOURN for the American boys remaining in Russia—as their jailer, “The Butcher of Budapest”, Nikita Khrushchev, is welcomed to our land.

Was any price asked of Khrushchev for the privilege of gaining respectability by our President’s invitation? Was no bargain made with the “Murderer of the Ukraine”?

Black was the day that Mothers of boys lost in Korea traveled to Washington and were coldly ignored. Black was the day they were threatened with arrest at the United Nations, in their futile attempt to publicize their heart-break.

### ***THE RED FLAG OF THE USSR WILL FLY IN WASHINGTON!***

Will OUR flag fly at half-mast as we mourn this day of infamy? As we remember the 52 out of 53 treaties broken by them? The lands of our friends swallowed up through our inaction, and our own cowardice in failing to face up to this expanding TYRANNY?

WE FAITHFULLY PROMISE THIS DAY, THAT WE CITIZENS OF THIS LAND, WILL WEAR BLACK ARM BANDS AND DRAPE OUR DOORS IN BLACK CREPE, DURING KHRUSHCHEV’S STAY.

### ***BLACK IS THIS DAY***

AND BLACK THE HOUR THAT THIS EVIL MAN STEPS FOOT ON OUR SHORES. BLACK ARE THOSE IN OUR GOVERNMENT WHO ALLOW HIM TO COME WITHOUT THE RETURN OF OUR MEN.

BLACK are those in our government and those in positions of influence, who have weakened our NATIONAL SPIRIT and who have broken their pledge to UPHOLD OUR CONSTITUTIONAL REPUBLIC.

COMMON SENSE FACTS ABOUT  
THE KRUSHCHEV - EISENHOWER  
EXCHANGE OF VISITS

---

September 1959

Fellow Citizens:

~~Every American has a RESPONSIBILITY during the Exchange of visits~~  
between President Eisenhower and Premier Krushchev to HELP make these  
visits a success to AVOID the HORROR of a 3RD WORLD WAR

Mr. George Sokolsky in the Los Angeles Herald, on August 7, 1959, said: "Krushchev comes as a guest of the nation, formally invited by the President upon the recommendation of the Vice-President. WE HAVE FOR A PERIOD OF AT LEAST THREE MONTHS BEEN AS CLOSE TO WAR as perhaps WE EVER SHALL BE WITHOUT ACTUAL FIGHTING...For those who are opposed to Krushchev, the most they can do is to stay away from any entertainment for Krushchev. TO CAUSE A RIOT WOULD ONLY DAMAGE THE UNITED STATES IN A CRITICAL HOUR. The people who think in terms of Humanity must recognize in these visits a final effort to avert a DEVASTATING WAR, and must welcome the opportunity to find a formula for peace...IT MAY BE OUR LAST CHANCE."

Vice-President Nixon in addressing the Veterans of Foreign wars, in Los Angeles, on August 31, 1959, said: "I would like to state for you today, the case of Mr. Krushchev's visit to the United States. The United States and the USSR are the TWO STRONGEST NATIONS on the face of the earth, EACH POSSESSING ALMOST UNBELIEVABLE DESTRUCTIVE POWER. There are differences between the United States and the USSR - If we fail to settle those differences at the conference table, the only other way to settle them is by war, which would destroy civilization, as we know it. If our differences are to be settled at the conference table, we must talk with our opponents."

In the Los Angeles Herald on August 31, 1959, appeared an editorial entitled, "BLIND OPPOSITION." "President Eisenhower has invited Krushchev to visit the United States as a guest of the nation. Serious consequences can follow....disorderly conduct in relation to a guest of the nation....Good manners, plain decency dictate that recognized nations must have relations with each other. NOTHING IS ACCOMPLISHED BY ACTING LIKE HOODLUMS...."

WE SHOULD NOT JUDGE RUSSIA OR KRUSHCHEV SOLELY BY OUR OWN STANDARDS

Premier Krushchev and the present Communist regime in Russia is a natural Revolt of the Russian people against the Brutal and Corrupt CZARIST AUTOCRACY that kept them in poverty, ignorance and superstition for Centuries and suppressed every movement of the people toward FREEDOM with MASS KILLINGS, EXECUTIONS or IMPRISONMENT in SIBERIA.

In Life magazine of January 13, 1958, an article entitled THE RUSSIAN REVOLUTION, said in part: "...This was a predatory state, which the CZAR and a Small Group of NOBLEMEN ruled for their exclusive benefit. The peasant was a serf, who could not have any ambition other than to die early and peacefully, or to survive with a minimum of work, taxes, hunger and beatings. The ruling group owned all of the wealth, enjoyed all of the privileges and monopolized all of the political power, and did not intend to give up any of its prerogatives."

OVER

The Boston Pilot, a Catholic newspaper published in Boston, Mass., on November 30, 1957, had an editorial entitled:

"G O D    A N D    K R U S H C H E V"

"In an interview with William Randolph Hearst, Jr.,...Krushchev proceeded to describe the West and its representatives. He said: 'God is but a mask these people put on...They lean on the word of God and then violate it....God is being used by these people for hire. They are Pharisees...They brought the cross and the Bible to colonize countries...They left the people the religion and took all the people had...' (The Editor says:) 'What is tragic about this is, so much of it is true...When the worker was being driven into the ground, when slums were being generated by bad wages, the Christian West went on singing pious hymns and ringing Church bells...Is it any wonder that in the face of such monstrous phariseism, religion itself became discredited?' (Continuing the Catholic Editor said:) 'If a poisoned Capitalism produced a zealous Communism, it was a fraudulent Christianity that produced a soulless atheism...WHAT KRUSHCHEV IS, WE TAUGHT HIM TO BE. IS IT ANY WONDER THAT HE MOCKS US?---HE WAS OUR VICTIM, AND HE HAS RETURNED TO JUDGE US. AND ALL WE DO IS TO CURSE HIS IMPUDENCE.'"

President Eisenhower and his advisors are belatedly attempting to end the cold war (that could lead to a hot war) between the United States and Russia. Regardless of past administration policies, we should in the name of Common Sense and Humanity support every effort by President Eisenhower to PROMOTE PEACE between United States and Russia.

Vice-President Nixon in Moscow, on July 23, 1959, said: "FOR THE FIRST TIME SINCE THE DAWN OF CIVILIZATION, WE MUST EITHER LEARN TO LIVE TOGETHER OR WE WILL DIE TOGETHER."

THE FOREGOING STATEMENTS CLEARLY SHOW US THE TERRIBLE DANGER THAT WE FACE FROM A HYDROGEN BOMB WAR

ANY PERSON WHO PROMOTES HATE BETWEEN U.S. AND RUSSIA - IN THIS CRITICAL HOUR - PROMOTES THE DANGER OF MASS MURDER OF THE HUMAN RACE.

*C. fear technique* → When Mr. Nixon was in Russia he was met with Flowers and Public Demonstrations of Friendliness and Applause by Russian Officials and People. He could talk with the man in the Street, Office, Mine or Factory, without being insulted or threatened with violence. If our attitude toward Mr. Krushchev is insulting or violent after he has been invited by President Eisenhower to come to this country, we will be disgraced in the eyes of the World.

*Communist technique* → Every act of discourtesy or violence toward Mr. Krushchev during his visit to the United States would only strengthen Soviet Russia's influence in the world. Our National Prestige is at stake; we dare not allow any disgraceful incident to occur.

The leaders of all Nations agree that conferences between the Heads of Governments is the Only Sane Way to Promote Peace. ATOMIC WAR WOULD BE AN ACT OF INSANITY AND SUICIDE FOR THE HUMAN RACE.

## FORUM & Agin' 'Em

### THE SOBELL CASE

To continue to have a forum for your readers is a fine thing, as only in this way can the truth come out. The Star-News has done a fine job in this category.

Betty Chesley's letter in the Star-News of Nov. 5 is a case in point.

Mrs. Chesley states that Morton Sobell did not have a fair trial due to the "hysteria of the McCarthy period." She says that Judge Kaufman stated, "The evidence in the case did not point to any activity on your part in connection with the atomic bomb project."

The following is the true documented story of Morton Sobell despite what Mrs. Chesley wishes Americans to think:

Morton Sobell was arrested of Aug. 18, 1950, for being part of a spy-ring, along with

Julius Rosenberg, his wife Ethel Greenglass Rosenberg, her brother David Greenglass, Harry Gold and others. Morton Sobell had fled to Mexico after the arrest of David Greenglass and was apprehended at Laredo, Tex.

The Rosenbergs, Greenglass, Harry Gold, Morton Sobell and others were charged with conspiracy in obtaining and sending to another country our atomic bomb secrets. The Rosenbergs got the extreme penalty of execution for treason. David Greenglass got 15 years. Morton Sobell and Harry Gold got 30 years. This was done with scrupulous constitutionality, as is evident in the documentation.

Morton Sobell, using every legal means granted to an American citizen in this country, appealed his case eight times to the Supreme

Court, nevertheless this same Supreme Court upheld the sentence and refused to review the case.

Our beautiful and spiritual Christmas season has brought forth similar efforts several years ago, by these same people, when they agitated for amnesty for those imprisoned under the Smith Act. Now these people are free in our midst and are subverting our fine organizations to their own ends.

Christmas stands for ethics, honesty, loyalty, moral law, love of one's fellow man as sons of God the Father. Why should this season be used to free from just punishment those who break our laws and are disloyal to their country? Mark Van Doren's lies are as nothing compared with the concealment of conspiratorial schemes going on in our society today!

The People's World of October 10, 1959, page 12 forewarns that this drive will be made. "The Shameful Years," a government document telling of 30 years of Soviet Espionage in the U. S., is available to all who really want to investigate this sinister plot, through the Superintendent of Documents, Government Printing Office, Washington, D. C.

Yours for truth,

MRS. FRANCES TUCKER  
Pasadena.

# Let's Open the Doors in Pasadena

As Americans we are deeply committed to the principle of liberty and justice for all. But here in Pasadena this principle is violated by discrimination against minority groups in their search for adequate housing. Our conscience and our responsible membership in the world community demand that we grant first class citizenship to all citizens of our country. In this spirit we sign the Open Housing Covenant.

"We, as home-owners and/or residents, believe that any family should be free to choose its place of residence. We would welcome neighbors on a personal basis without regard to race, creed, or country of origin."

# Please, President Eisenhower, Don't!

Hon. Dwight D. Eisenhower  
The White House  
Washington, D. C.  
Dear President Eisenhower:

We cannot believe that when you agreed to the exchange of visits with Nikita Khrushchev you were fully aware of the following facts and considerations:

1. It was Khrushchev's terrific zeal and utter lack of conscience, in killing off those who deviated in the slightest degree from the then current Stalin line, after Stalin achieved supreme power in 1929, which first brought Khrushchev to Stalin's favorable attention.
2. It was the unrivalled blood-letting by Nikita Khrushchev, as Party boss of Moscow province from 1934 through 1937, that caused Stalin to make him First Secretary of the Ukraine.
3. As dictator over the Ukraine, responsible only to Stalin, both before and after the German occupation, Nikita Khrushchev eradicated enemies and liquidated opposition on a scale which, for combined numbers and cruelty, has probably never been equaled. The ninety-five mass graves at Vinnytsa, containing nearly ten thousand corpses of fully dressed victims — many of whom, both men and women, are shown by the evidence to have been alive and gasping for breath when they were buried — is merely a typical example of the horrible fate which Khrushchev inflicted on literally millions of residents of the Ukraine.
4. It was Khrushchev's order which sent Soviet tanks, manned by Mongolian crews, rolling into Budapest to crush the Hungarian fighters for freedom. One of these tanks approached a makeshift barricade defended by teenage girls. The position of the defenders became desperate. One of them, fifteen years old, in a sudden decision, poured gasoline over her own clothing, ignited it, and then, as a living torch, jumped into the turret of the Russian tank and blew it to pieces. This shows the hunger for freedom on the part of hundreds of millions whom Khrushchev holds enslaved.
5. As Eugene Lyons pointed out in *The Reader's Digest* just two years ago, Nikita Khrushchev "achieved his present status by the unlimited use of brute force. This has been his specialty for nearly twenty years. He reached the Kremlin pinnacle in the only way that the Soviet pyramid of power can be scaled: over piles of corpses." In Khrushchev's case it seems entirely probable that the piles of corpses due directly to his personal orders were larger than for any other human being (if he can be called one) who ever lived. Nikita Khrushchev almost certainly holds the record, and deserves the title, of the *schindler* of all recorded history.

7. From a practical point of view, it is inescapable for our government to give Khrushchev the undeserved prestige and the propaganda triumph of fraternizing on equal terms with the President of the United States.

8. From the point of view of international politics, nothing could be more disastrous to anti-Communist morale throughout the world, or more beneficial to the Communist tyranny, than the proposed exchange of visits between Khrushchev and yourself.

9. Experience has proved conclusively that any agreement or understanding you might reach with Khrushchev, even in this private and unconstitutional manner of conducting the foreign affairs of our country, would be ignored or broken as soon as it suited the convenience of Khrushchev or his successors. Every "summit conference" in which a President of the United States has engaged with a Soviet dictator has had disastrous consequences for ourselves and the free world.

10. We are engaged in a continuous world-wide war — in which actual fighting is going on right now, in Algeria, in Indonesia, and in other parts of the world — with enemies who have sworn to destroy us as a nation and to bury us as a people. Even this present and "greatest peace offensive of all time" has been openly blueprinted by these enemies as a part of their strategy to conquer us.

This is war to the death; and none the less war because the Soviet Union chooses to fight that war in its own fashion, with its own weapons of trickery, terror, and treason. The recognized head of the Soviet Union is Nikita Khrushchev. There is no possible question but that the royal reception planned for him by our government will, at this stage of the struggle, give immense aid and comfort to the most vicious and most dangerous enemies our country has ever faced.

Mr. President, on July 19, 1959, you asked the people of the United States "to study the plight of the Soviet-dominated nations and to recommit themselves to the support of the just aspirations of the peoples of those captive nations." Having complied with your request, having studied the pitiful conditions of these fellow human beings, and having rededicated ourselves to their liberation, we now come to you with a request in turn.

We respectfully urge you, Mr. President, with all of the earnestness we can convey, to reconsider your decision; and to insist that the Soviet Premier postpone his visit to our country until he has shown, by his treatment of the captive nations and their enslaved peoples, that he is no longer the enemy of freedom and of ourselves.

6. From the point of view of morality alone, it is a crime against humanity for our government to receive Nikita Khrushchev as an honored guest.

**\* PLEASE CLIP THIS COUPON!**

**Please, Mr. President, Don't!**

For the reasons given by the Committee Against Summit Entanglements, and for many other reasons which could be listed, we the undersigned respectfully urge you: (1) to insist that the visit of Khrushchev be postponed indefinitely; (2) to refrain from visiting Russia; and (3) not to meet with Khrushchev in any summit conference, anywhere.

\*Clip out this coupon (or the whole advertisement), get other signatures besides your own on the petition, and mail it promptly to the White House, Washington, D. C. Article I of the Bill of Rights of the Constitution of the United States guarantees the right of the people to petition the government for a redress of grievances. Letting our supreme enemy, Khrushchev, be honored within our borders would be a grievance of deepest import to all patriotic Americans. Now is the time to use this right of petition to the fullest extent, in order to preserve it and many others.

**A Statement for This Committee**

"I have strongly opposed Khrushchev's coming to this country. I am still strongly opposed. I can foresee no good resulting from this visit. I fear his presence here will further soften some of our more complacent citizens, and discourage and dishearten people in Communist captivity as well as our free-world allies."

— Senator Styles Bridges

If you agree with this committee, and are willing to help us to put this message and these petitions in as many newspapers as possible across our country, send your check — now — to the Committee Against Summit Entanglements, 385 Concord Avenue, Belmont 78, Massachusetts. All receipts and expenditures will be audited by a nationally known firm of accountants, and a final report sent to every contributor.

*The copy within has been run so far, as a full page advertisement except where otherwise noted, in the papers listed below. At this date (Thursday, September 10) the odds are still against success, in these efforts of ourselves and many others to prevent the Khrushchev visit. But in any event we feel we have helped to give millions of the American people, at a time and in a way that they would read the message, important information concerning Khrushchev and concerning the alarming significance of his having been invited by Washington to become an honored guest of our nation.*

FREEDOM vs COMMUNISM  
and  
LABOR MONOPLY

The recognized threat to free competition and to our very economic system posed by Union monopolies today, requires that LAWS be enacted, (just as they were 70 years ago in regard to Industry) to curb their unbridled economic power and to protect the public.

When one group grows so big and powerful as to control the destiny of all America, action must be taken and this is the time.

IT IS FREEDOM UNDER LAW versus COMMUNISM

WHEREAS, anti-trust laws fall heavily and unequally today on employers alone and

WHEREAS, Unions today engage in practices as ruthless and irresponsible as employers and corporations did before they were controlled by the anti-trust laws that have been passed, and

WHEREAS, the tremendous power which presently exists in the hands of organized labor has been abused in innumerable instances and requires legislative restraint, and

WHEREAS, The possession and abuse of this great power by Labor has now reached such a point that the American people must decide which is more important; THE UNITED STATES OF AMERICA or Jimmy Hoffa, Walter Reuther, James B. Carey, or Harry Bridges, and

WHEREAS, in order to win the cold war with Russia no one group must be allowed to grow so strong as to be able to bring our entire economy to a halt, and

WHEREAS, some Union Leaders have even gone so far as to threaten the Congress itself, for exercising its proper function, by threatening retaliation at the ballot box, against individual Congressmen for voting in support of much needed legislation, therefore

BE IT RESOLVED that legislation similar to the anti-trust laws which regulate business, be passed by the Congress to regulate the abuse of power which now exists in the hands of organized Labor.

(After filling with signatures, mail to: Vice President, Richard M. Nixon,  
Office of the Vice President,  
Washington, D. C.  
and to your Congressmen and Senators.)

Nuclear Weapons Tests  
Star News

We have just written President Eisenhower that we feel it was a serious mistake to call off the moratorium on bomb testing. We believe we cannot just pressure Russia and other countries into accepting our point of view, but must work out an agreement including their points of view on the best way to carry out inspections.

It seems to my husband and me that other countries will interpret this as a move on our part to continue the cold war. This is just the opposite of what the President's recent trip was supposed to accomplish.

Even if other countries should try such tests, we feel that our country should not carry on any underground tests. These would increase the contamination of our soil already begun by radiation from fallout, and so further endanger our own people's food.

## Doing Enough Damage

*Star News*  
Violet Orr's letter in the Star-News of Jan. 11 was tremendously interesting, for on the same page was David Lawrence's run-down on the State of the Union speech by President Eisenhower.

How clever the editors of the Star-News show themselves to be, for this speech of the President's, as reported by Mr. Lawrence, answers all Mrs. Orr's questions.

Mrs. Orr shows herself to be an unusually gentle woman, because she backs up her statement by using her husband. This is delightfully feminine.

We agree with her when she says, "We cannot pressure Russia and other countries into accepting our point of view" in regard to our cancelling the agreement to discontinue nuclear testing.

Realistic evaluation of these matters shows beyond any shadow of doubt that no agreement with the Kremlin or its stooges will be lived up to, unless it is to their advantage. Evidence today is overwhelming that while this moratorium was in force, Russia was secretly testing its nuclear weapons in caves and below the ground, where the resulting scission merely showed on the world's monitoring system as slight earthquakes.

Violet again shows her utterly feminine qualities when she believes that anything our country does or does not do will prolong the cold war. This cold war is a well-planned scheme of paralyzing free countries and is being used for all its worth by the new Red czar of all the Russians.

Let's let the men run things, Violet. They are doing enough damage without any help from their women.

## AMERICA'S SOVEREIGNTY

### WILL BE LOST IF THE U.S. SENATE VOTES AWAY

#### THE CONNALLY AMENDMENT

This amendment has protected America's domestic affairs since it was passed in 1946, by a vote of 62 to 2.

If the Senate nullifies the Connally Amendment, our way of life will be jeopardized by a Court that is NOT REQUIRED TO BE GUIDED BY THE RULES OF COMMON LAW OR THE AMERICAN SYSTEM OF CONSTITUTIONAL LAW. Its JUDGES will be free to apply ANY RULE which may be developed by a majority of the court, through WHIM, CAPRICE, GREED, ENVY, OR ACTUAL HATRED.

Senator Robert A. Taft said in 1951 in his book, "A Foreign Policy for Americans", page 46: "I CANNOT CONCEIVE OF A RESPONSIBLE AMERICAN STATESMAN WILLING TO SUBJECT THE GREAT PRINCIPLES WE HAVE DEVELOPED IN THIS COUNTRY TO DESTRUCTION BY AN ALIEN MAJORITY."

Also, Senator Taft said on page 45: "Anyone who suggests such a plan is proposing an end to that liberty which has produced in this country the greatest happiness, the greatest production, the highest standard of living the world has ever seen."

This Court, loaded with members of the Communist Party and their dupes, would have jurisdiction over all areas of our lives, for Congress will NO LONGER control our -----

The Patriotic Letter-Writers, Box 2003D, Pasadena, California, have just received word from Washington that the Connally Amendment will be considered by the Senate Foreign Relations Committee on JANUARY 27th, and it will take a 2/3 vote of the whole Senate to pass. HOWEVER, Congressman Harris B. McDowell, Jr. has introduced a House Joint Resolution on the same subject. A simple majority of the combined votes of the House and the Senate, then, would PASS this surrender of our LIBERTIES to a WORLD COURT. A FEW DAYS OF LETTER-WRITING MAY SAVE YOUR COUNTRY. WRITE YOUR CONGRESSMAN, PATRIOTS!

AIR FORCE MANUAL TELLS THE TRUTH  
REVEALS COMMUNIST INFILTRATION INTO  
THE NATIONAL COUNCIL OF CHURCHES

Mr. J. Edgar Hoover, Head of the Federal Bureau of Investigation, warns: "Because they despise the Church, Communists continually attempt to infiltrate unsuspecting religious organizations. What better cloak of legitimacy can be found for their programs, than to present them as the offerings of clergymen and Churches? The strategy of Communists to get others, to FRONT for them and do their dirty work, cannot be under-estimated."

Mr. J. B. Matthews writes in his book, "Communism in the Churches", page 9, "The largest single group supporting the Communist apparatus in the United States today, is composed of Protestant clergymen."

The House un-American Activities Committee Files, as of 1953, show that 8,673 clergymen are in the Communist conspiracy. At that time there were 353 Rabbis, 626 Presbyterians, 1,429 Protestant-Episcopal, and 2,131 Methodists!!

LET US FACE THE FACTS  
The National Council of Churches LOBBY in Washington  
is a MAMMOTH OPERATION (Time magazine, 1/13/58)

The National Council of Churches is a provably powerful political LOBBY for SOCIALISM, hiding behind the facade of a Christian name and enjoying TAX-EXEMPTION. (Dan Smoot Report, Page 69, 2/29/60)

Dean Clarence Manion said in his broadcast of Sept. 13, 1959: "If we cannot launch an effective campaign against COMMUNISM IN THE CHURCHES, we cannot defend ourselves against communism on the Political and Economic fronts in this country."

Rev. Eugene Carson Blake, Chairman of the Committee on Interpretation of the N.C.C., said: "It is not unreasonable to prophesy that the Churches ought to be able to control the whole economy of the Nation, within the predictable future." (L.A. Times 12/19/59)

When questioned about the AIR FORCE MANUAL, the Rev. Blake said: "I will take this to the WHITE HOUSE if necessary." (L.A. Examiner, 2/28/60). However, when the HON. Francis E. Walter, chairman of a duly constituted investigative committee on COMMUNISM, invited Dr. Blake and the five other Church Leaders to testify UNDER OATH, ALL REFUSED. (L. A. Examiner, 2/28/60).

DOCUMENTED AFFILIATIONS LISTED BELOW

Rev. Edwin T. Dahlberg, President of the National Council of Churches, has a record of 17 public listings of his affiliations with Communist activities, petitions and fronts. ("Recognize Red China?", p. 27, pub. by Circuit Riders Inc., Cincinnati 2, Ohio)\*\*

719 of the OFFICERS whose names appear on the rolls of the National Council of Churches HAVE RECORDS OF COMMUNIST AFFILIATIONS. ("Recognize Red China?" preface pub. by Circuit Riders Inc., Cincinnati 2, Ohio) \*\*

### Student Loyalty Oath

It is hard to understand why anyone accepting a scholarship from the taxpayers under the Defense Education Act would object to taking the loyalty oath with its disclaimer of activities in subversive organizations.

The claim is that, since subversives have no compunction about lying or swearing falsely, the loyalty oath is of no value.

However, Alger Hiss and William Remington were convicted of swearing falsely

not of trying to overthrow the United States government.

As long as this oath was a prerequisite

★  
to obtaining a passport for travel overseas, no Communist party member or cited Communist dared take it. They could have been convicted of swearing falsely.

The loyalty oath is a necessary safeguard. Loyal students willing to take this oath should not be handicapped in their choice of a college. And why should we educate traitors with government money?

### MASS DEMONSTRATIONS OR RIOTS (?) AT DEMOCRATIC CONVENTION?

So-called peaceful demonstrations elsewhere in the World have resulted in uncontrolled violence, even the overthrow of existing governments!! Could that happen here??

1. Will the so-called monitored and non-violent "MARCH WITH US FOR DISARMAMENT", planned by the Consultative Peace Council, with the avowed purpose of influencing decisions at the Convention, result in MOB VIOLENCE?
2. Will High School Youths, who have been urged to join these WALKS by alarming letters from the High School Desk of the American Friends Service Committee, Box 991, Pasadena, California, become embroiled in uncontrolled rioting?
3. Will the Demonstration "FOR KHRUSHCHEV", planned to take place in conjunction with the Convention, be peaceful?

### WHAT FORCES ARE BEHIND THESE MASSIVE DEMONSTRATIONS?

1. As long ago as 1931, Dimitri Manuilsky outlined the uses of a Peace Movement in Disarmament. He said, "...as soon as their guard is down we will smash them with our clenched fist."
2. Allen W. Dulles, Director of Central Intelligence, told 2,500 New York policemen that communist agents are working directly under orders from the Soviet Union to incite Revolution. (from "Report to America", June 1960, Amer. Coalition of Patriotic Soc.)
3. The Communist Peoples World of 6/18/60, announced that massive non-violent picketing will be coordinated with great rallies, previous to the Convention!

Mr. James Haggerty says of the riots in Japan, "It is obvious that the demonstrations were carefully planned by a group of professional organizers." (U. S. News & World Report, 6/20/60)

Tass News Reporters and Soviet TV and Movie camera men, all accredited to the Press Gallery, will take full advantage of these demonstrations for GLOBAL PROPAGANDA of the Soviet Union. (See SPX Report, Soviet Principle Ten of War, by Tom Hutton.)

# INTERNAL CONTROL OF POLICE BY EXTERNAL FORCES

By POLICE CAPTAIN EDWARD M. DAVIS

Vice President, Los Angeles Fire & Police Protective League

Based upon accepted administrative and personnel principles, the internal discipline of the employees of any organization is a matter for the management of the concerned organization. The right to discipline carries with it the power to control the conduct, actions, and attitudes of the employees of an organization. When the right to discipline employees is vested with management, management therefore has the essential tools with which to attain the desired behavior from employees. If, however, the ability to discipline employees is taken away from management, or if management must share this responsibility with some outside person or organization, management is then stripped of one of the most essential powers in the operation of any organization. When the employee is subjected to disciplinary actions or disciplinary investigations from sources outside his organization, a fundamental rule of organization has been breached and the employee becomes confused, diffident and inefficient.

The people of the City of Los Angeles well recognized these important principles many years ago. In 1934 the citizens of this City adopted Section 202 of the Los Angeles City Charter which provides that the disciplining of Policemen would be a matter under the exclusive control of the Chief of Police and duly constituted boards of rights composed of command and staff level officers of the Police Department.

The wisdom of the electorate is well testified to by the distinctive record of the Los Angeles Police Department. It is almost unquestioned by lay persons and law enforcement officials that the Los Angeles Police Department ranks as one of the world's finest municipal law enforcement organizations. Section 202, of the Charter, together with an additional Charter amendment in 1937 which requires that the Chief of Police be selected by competitive civil service examination, are probably responsible for this high standing of the Los Angeles Police Department. These provisions insure that neither politics nor special pressure groups can have any substantial influence on the administration of the Police Department if the Police Department and the Chief of Police are operating lawfully.

The Los Angeles Police Department and the Los Angeles Fire and Police Protective League were therefore greatly disturbed when we read the proposed ordinance which would establish a Police Review Board for the Los Angeles Police Department.

This proposed ordinance is a shocking document. It provides that there shall be constituted in the City of Los Angeles, a board which will hear and determine complaints from any person alleging misconduct by a Los Angeles Policeman. The term "misconduct" is designed to include mistreatment, false arrest, unreasonable search and seizure, and the denial of civil rights. The board is to be composed of five members appointed by the Mayor with the approval of the City Council. Five different groups will submit five names each. The Mayor and Council will then be required to select the five-man board from the names submitted. Those persons or organization making the nominations would be the presiding judge of the Superior Court, the Chairman of the Los Angeles County Commission on Human Relations, the Chairman of the Political Science Departments of U.C.L.A., L.A. State College, and U.S.C., the Chairman of the Democratic County Central Committee, and the Chairman of the Republican County Central Committee. The board would make findings and recommendations on complaints and send them to the Police Commission and the Chief of Police for "appropriate" action, and the board may refer their findings to the City Attorney with recommendations for criminal prosecution. The ordinance further provides that the board may award the sum of up to Five Hundred Dollars to each complainant who, in the opinion of the Board, was injured by the misconduct of a Policeman, such sum would be drawn from the City treasury. The board would be empowered to appoint two investigators at an Eight Thousand salary each. The ordinance further provides that no complainant shall be prosecuted or punished on account of filing a claim, and further provides that no one making a complaint to the Board could be prosecuted under Section 52.50 of the Los Angeles Municipal Code. This code section provides that a person making a false report to the Police Department is guilty of a misdemeanor.

An element of our society which will look with favor upon the creation of a police review board is the organized underworld. It is noteworthy that in the city of Philadelphia one of the cases in which Policemen were found guilty by the Police Review Board was a case wherein they allegedly violated the civil rights of a previously convicted numbers racketeer when the officers, armed with a lawful search warrant, searched the suspect's premises and seized numbers paraphernalia. It is easy to see how book-makers, numbers racketeers, heroin peddlers, and other organized criminals would use the Police Practices Review Board to harass and further hamstring the police in their efforts to minimize these unlawful activities. Creation of the board would result in the policeman being on trial in every case wherein he made an effective arrest.

The ostensible reason for the creation of such a review board is the alleged brutality of police against minority groups. I know for a fact that in the City of Los Angeles that there is no unnecessary force used against minority groups any more than unnecessary force is used against any other elements in our society; however, people desiring to render the police ineffective use alleged leaders of minority groups in their program of vilification against the police. Because of their general conditioning toward a belief that they are discriminated against, alleged leaders of certain minority groups are prone to believe the worse about the treatment of their group by the police. In most cases the alleged leaders of minority groups do not realize how they are being used as a tool to destroy law enforcement which is so essential to these groups, particularly in the lower socio-economic areas of large cities.

Let us look at some of the results which you might expect if your Police Department is placed under a Police Review Board as proposed by the Civil Liberties Union. I say "placed under" advisably because the power to discipline is the power to direct, and if this board is given coercive disciplinary powers over policemen, they will in fact be directing the activities of the department. Such a board would be the opening wedge for machine politics in the City of Los Angeles. This State has been fortunate not having partisan public offices at the local level. In the big eastern cities with partisan city offices, a machine controlled by members of the dominant political party wield fantastically tight control over the government of the city. Police officials must give considerable concern to pleasing the party machine then in power. This results in partial enforcement of the law and domination of the Police Department by outside forces dedicated to the perpetuation of their regime. Vice is often cultivated and milked to support election campaigns. As you have noted, the proposed police review board would have the County Central Committee of both parties tying the hands of the Mayor in appointing members to the board.

Organized crime would probably find a sympathetic ear in the proposed board. The Civil Liberties proposal would allow them to move into "false arrest, unreasonable or unwarranted interference with private property, or business, unreasonable or unwarranted use of force, unreasonable search and seizure, unreasonable and unwarranted interference with lawful associations and assemblies . . ." At the present time if unlawful seizure of evidence is alleged, the arrestee's recourse is to the criminal court hearing his case. Under existing rules of evidence if he satisfies the court or the jury that the evidence was unlawfully obtained, his case is dismissed or he is found not guilty. The Civil Liberties Union is not satisfied with the courts in this matter but would give the arrested person further recourse to take his case before the Review Board to cause a policeman to be disciplined for alleged unlawful seizure of evidence. The Philadelphia numbers racket case cited previously makes it clear how members of the organized underworld could further harass the police through the use of the board. If policemen constantly had to defend their actions in doing everyday police work to such a board they would soon learn that it would not pay to bother with numbers rackets, book-makers, and narcotic violators who complained to the board.

That there would be a steady procession of such complaints is a certainty because the proposed ordinance provides an award of up to \$500 to any person who was found by the board to be injured by the alleged misconduct of a policeman, and the complainant would have nothing to lose because the ordinance further provides that a complaining party or witness would not be subject to prosecution under the City ordinance which makes the signing of a false police report a misdemeanor. The complainant would have nothing to lose but \$500 to gain. In the records of the Philadelphia review board, guilty findings against policemen have been indicated after they have been acquitted by both the courts of Philadelphia and the Police Department trial boards, showing that the \$500 reward would many times be granted whether a policeman was guilty or not. Putting such monetary incentive on either true or false testimony against a public official is repugnant to our American sense of justice.

## WHO IS ADVOCATING POLICE REVIEW BOARDS?

By POLICE SERGEANT NORMAN H. MOORE

Chairman, Legal Aid Committee, Los Angeles Fire & Police Protective League

Who is proposing Police Review Boards? . . . The Los Angeles branch of the American Civil Liberties Union provided us with the answer to this question and a draft of their proposed ordinance.

According to statements in the press attributed to spokesmen for the Civil Liberties Union in Los Angeles, that organization has this matter in the discussion stage. In the City of Philadelphia, however, a similar move by the Civil Liberties Union has already resulted in the creation of a police review board which was established by the administrative order of Mayor Richardson Dilworth. The Civil Liberties Union is currently attempting to set up such a board in the City of Detroit. It is interesting to note that some of the promoters of this scheme are people who are attempting to set aside the conviction of Morton Sobell, convicted of conspiracy to commit espionage against the government of the United States. Sobell was convicted with Julius and Ethel Rosenberg, executed atom spies. Some of the plan's promoters are also against loyalty oaths in America. (*People's Daily World*).

It is also interesting to note that a leading attorney connected with the Los Angeles Branch of the Civil Liberties Union is currently representing Mickey Cohen in a suit charging several Los Angeles Police Officers with violating Cohen's civil rights.

We can establish that the efforts to set up police review boards are national in scope and that the cities of Detroit, Philadelphia and Los Angeles are currently affected. These efforts will not displease the Communist party, for one of their objectives is to render law enforcement ineffective. In a recent interview that I conducted in New York, Herbert Romerstein, a former member of the Communist party and an acknowledged expert on Communism, states: "Let me first give you some information on the basic Communist position on Police Departments. The Communists have felt since the inception of the Communist party that the police were their enemies and any work they could do to weaken the work of the police, to incapacitate them, or to make them a subject of ridicule is of vital importance to them." Well trained and confident police stand as a bulwark against civil disorder. The Communist cause in a non-Communist country can thrive and prosper much more rapidly when they can capitalize on civil disorder; and when the police are made incompetent or ineffective and cannot handle civil disorder, Communism thrives. In San Francisco last week, a three day demonstration of leftist inspired civil disorder was demonstrated to the American people. Those individuals dedicated to principles that are not unlike that of the Communists participated in violent and riotous demonstrations for several reasons . . . one reason of course was to protest the un-American activities hearing . . . another reason was to test the police in action. The revolutionists learn much from observing the police in situations such as these. I would imagine that they are somewhat displeased with the efficient manner in which the San Francisco police department halted the demonstrations almost before they started.

It is interesting that most of the professional revolutionists and agitators escaped arrest, by their timely and well rehearsed exits. But even at that, 14 of those arrested were not "just students." As a matter of fact, one of those arrested has refused to testify before this committee. Incidentally, the ACLU has guaranteed bail for anyone arrested in relation to these demonstrations. It is fortunate that the ACLU fostered police review board plan has not struck in San Francisco. For if it had, a regular three-ring circus would probably occur. Each officer who performed his duty would undoubtedly be subject to fact-twisting hearings administered under the police review board theory. As you may recall, Russia's Krushchev, who recently visited Los Angeles, was very unhappy with the security measures that were used to insure his safety. He complained that the Los Angeles Police had him under house arrest. Fortunately, at the present time Krushchev cannot take his complaint to a Police Review Board fostered by the Civil Liberties Union.

In spite of the timely exposure of this national plan of the American Civil Liberties Union, the issue is probably far from dead.

I think we will agree that this latest attempt at outside control into the police field is only another of the many previous attempts to inject morale breaking problems into the administrative area of law enforcement. We in California can most certainly anticipate other critical situations of a like nature to develop by using history as a teacher. If history truly repeats itself, then we in California can most certainly anticipate repeated programs of this type locally, and on state and national levels.

These negative programs very definitely seem to be gaining momentum, particularly in California. It may be of interest to you to know that the ACLU at the end of the 59-60 fiscal year had reached an all time high in membership income. Some 21% over the previous year. In analyzing ACLU's annual report for 59-60, we see that the Southern California branch by far exceeded all other branches in funds received from the national headquarters. These facts, coupled with their very obviously accelerated efforts clearly define a dangerous potential to law enforcement.

Four courses are open to the proponents of Police Review Boards. (1) They may seek to use the Philadelphia system and have the Board created as an administrative action of the Mayor. (2) They may seek to have the Board created by the passage of an ordinance by the City Council. (3) They may seek to have the board created through the passage of a Charter amendment by vote of the people. (4) They may seek to have Boards created through state legislation. They undoubtedly are analyzing the points of greatest weakness and are waiting for the time when they can be most successful.

Already we have evidence that at least one City Councilman has been requested to champion a Police Review Board proposal through the Los Angeles City Council. We have also been reliably informed that at least one of our northern Assemblymen has promised to introduce to the California Legislature a bill which would establish local Police Review Boards by State Mandate.

Communist informer Romerstein predicts the future by telling us "You'll be facing fire from two sides. One is the question of the establishment of the Police Review Board which can become a permanent instrument of attacking the Police, that is, as each case comes up, the leftists and their friends can make complaints before the Police Review Board and keep the Police Department tied up in constant agitation and litigation . . . The fire on the other front is something that is taking place over a long period of time, and that is the picking out of individual cases and attacking and embarrassing the Police Department in regard to these. It is necessary to organize a counter campaign . . . Let me caution the Police on one very important aspect of this, and that is this whole concept that a policeman is supposed to be not a law enforcement officer, but a social worker; that human relations are more important than crime prevention . . . this has permeated leftist thinking for many years, and this purpose too is to weaken the Police."

I have considerable documented information, not only as a result of the Romerstein interview, but as a result of my conferences with various officials affected by or dealing with the Communist Movement in many of our key cities.

Our organization will not hesitate to use this valuable information in defeating the Police Review Board proposal or any other related attempt to hamstring law enforcement.

In conclusion let me point out that in 1942 Mr. Roger Baldwin who has been described as Mr. ACLU stated: "Today man must be judged in part by his motives." . . . Let us agree with Mr. Baldwin on this point.

## TRIPLE JEOPARDY

A Documented Editorial

### WHO'S PULLING THE STRINGS?

Next month the A.C.L.U. (American Civil Liberties Union) plans a conference in Los Angeles. The subject of this conference will deal with the method that must be employed to create a Police Review Board in Los Angeles.

For some time now, on a national level, various organizations including the A.C.L.U. and the N.A.A.C.P. (National Association for the Advancement of Colored People) have been active in attempting to create Police Review Boards independent of the Police agency. Your League has been closely following the efforts of these organizations and had hoped that when these organizations were informed that Los Angeles Police Officers work under Charter provisions which afford adequate supervision and control that their "push" would cease. This, obviously, has not happened. We now find it necessary to objectively point out to the citizens of our city and state the inherent dangers in Police Review Boards as advocated by the A.C.L.U.

#### California Democratic Council Joins Chorus

Immediately following the U.S. Civil Rights Commission hearings in Los Angeles last January, increased local pressure and activity was exerted by individuals and organizations who have been identified as advocating Police Review Boards. Last February the California Democratic Council adopted recommendations to urge all cities and counties to create Police Review Boards independent of the police agency to hear citizens' complaints of mistreatment by the police and recommend disciplinary action.

#### National Lawyers Guild Urged

Last month Mr. Hugh Manes spoke to the National Lawyers Guild in Los Angeles and stated that the A.C.L.U. fostered and adopted the Police Review Board program. He further stated that the N.A.A.C.P. and several Latin or Spanish groups had also adopted the program.

It has been reliably determined that the A.C.L.U. meeting is tentatively scheduled for May, 1960 and that they intend to determine at that meeting whether to attempt the creation of a local Police Review Board by

### Serious Problems in PHILADELPHIA and DETROIT

The Police Departments of at least two major cities of our country are the targets of campaigns directed and inspired by so-called minority groups which if successful could undermine the efficiency and sap the morale of these law enforcement agencies. The specific purpose of these campaigns is the establishment of a citizens committee or board which could in effect wrest the control of a police department away not only from the heads of the department itself but also from the duly constituted authority of the city, from the mayor, the city council, and the courts. In Philadelphia this campaign has already achieved success in the establishment of a Police Review Board composed of five citizens.

In Detroit by the use of high sounding phrases that are worthy of a better cause, the American Civil Liberties Union is trying the same tactics that it and similar organizations that thrive on the social tensions they are supposed to alleviate have tried in other cities. Devoid of all fancy words and wrappings these organizations are attempting to control police departments, police activities, and law enforcement in general.

Every police department in our country is and should be controlled by the public it serves but this control must be by all the citizens and not by any one segment swayed and prejudiced by the emotions and tensions of a single group, or of a certain time or place. A civilized society makes its laws and the police profession is its agency to enforce them. Unless society is able to enforce the laws it lays down for all its members it will not long exist in a civilized state. The direction and control of police activities, not only the making of the laws but their enforcement must be the right of society, of all the members that make up a community. The methods of exercising this supervision of police activity are well established and entirely adequate. Any attempt to introduce biased interference and unwarranted restraints by and for a minority segment of the population is contrary to the interests of society as a whole. The supervision and guidance of law enforcement by the general public is lost and power is placed in the hands of a few who have their own selfish interests and motives.

Specifically the Civil Liberties Union is attempting

## POLICE REVIEW BOARD IN THE MAKING

Los Angeles, March 23, 1960 -

Attorney Hugh Manes, member of the Board of Directors American Civil Liberties Union, spoke before the National Lawyers Guild today regarding his affiliation with the American Civil Liberties Union and the program relative to the establishment of a Citizens Board to hear and decide and to give monetary judgement in all cases of false arrest, police brutality or assault and battery by Police Officers of the City of Los Angeles. Manes stated that it is useless to sue Police Officers because you cannot collect a money judgement.

Manes stated that the only way to handle this would be to go to the City Council and to have such a Board established. But he stated that at this time this was not feasible and they hoped to hold an open conference some time in May or June of this year relative to the adoption of this program. In addition to this he stated he felt that it was imperative that all candidates for office in the City Council be asked and a commitment obtained as to the candidate's position on this question.

He indicated that this program is not only adopted by and being fostered by the A.C.L.U., but has been adopted by the N.A.A.C.P., and several of the Latin or Spanish groups and that he was at this time pushing so that the National Lawyers Guild would also adopt it.

Robert L. Brock is the President of the L. A. Chapter National Lawyers Guild.

ordinance, charter provision, or state law.

In 1957 and 1958, a major goal of the Philadelphia Branch of the A.C.L.U. was the creation of an official city agency, independent of the Police Department. This goal was accomplished when Mayor Richardson Dilworth (see last page re:loyalty oath when he was D.A.) of Philadelphia appointed a five-man citizen Police Review Board. It is interesting to note that this action was taken after the City Council killed an Ordinance which would have created such a board.

After the first year of operation, the A.C.L.U. issued a report authored by Spencer Coxe which stated among other things that "A.C.L.U. would have preferred to have had statutory authority for the appointment of the board and I should think A.C.L.U. groups in other cities would be well advised to work for this." The report in substance goes on to say that the hearings are open to the public, that the complaint need not be from the individual aggrieved, but may come from organizations such as the N.A.A.C.P., A.C.L.U., and miscellaneous city officials. This report concludes that A.C.L.U.'s part in creating this board is the most useful single activity the Philadelphia Branch has undertaken since 1952.

### Kangaroo Court

Allowing persons other than the complainant to accuse Police Officers removes the right that even a criminal has and that is the right to face his accuser. Thus the very people who so loudly proclaim every man's right to due process of law, believe the police should be second-rate citizens who should be judged by

a "Kangaroo Court" after they have been stripped of all of the rights guaranteed to other citizens.

### A Dis-Service to the Police Commission

The Los Angeles Police Department is headed by the Board of Police Commissioners. This Board is comprised of outstanding lay citizens of our city. These men are appointed by the Mayor subject to City Council approval. To create a Citizens Board of Review for the Police Department would be a repudiation of our Police Commissioners through whose excellent leadership our department functions.

There appears to be no doubt that morale would be seriously affected to the disadvantage of our citizens if such a Board were created.

To have citizens boards hear cases of alleged Police Department rule violations is not consistent with good government or good administration. Section 202 of the City Charter clearly defines the process in which hearings and disciplinary actions are administered for police officers.

Should a violation of the law be committed by police personnel, the aggrieved party has numerous avenues in which he may be heard and file charges -- the Grand Jury (nineteen citizens), District Attorney (Elected by the people), City Attorney (elected by the people), F.B.I. for civil rights violations, any Police Station and the Internal Affairs Division of the Police Department.

As far back as 1934 the citizens of this city elected to establish City Charter Section 202. This section made a Police Officer's job a property right from which he could not be deprived except under the Charter provisions. No longer were policemen at the mercy of every political change of administration, nor did they have to serve other than "Without Fear or Favor."

This City has enjoyed an honest and efficient Police Department with City Charter Section 202. It has been said that the main reason the Los Angeles Police Department is respected as a world-wide leader is that it is divorced from politics. Should a Police Review Board be established one of two disastrous results would occur: existing Charter Section 202 would be destroyed or the Charter provision diluted to the extent that its purpose would be nullified.

When we analyze those organizations and individuals urging and pushing for Police Review Boards, we fear that our citizens will further feel the continuing effect of more campaigns waged to hamstring good law enforcement.

in Detroit to foist a Public Police Review Board upon the citizens and the police department of that city. It has not been one bit discouraged by the fact that in Philadelphia where such a board was created, the high-handed action it has taken has been so intolerable that its legal right to continue to exist, interfere, condemn and penalize police activities is now the subject of a suit in the higher courts. Due to the fact that the Police Association in Philadelphia is not a member of our National Conference our information is far from complete at this time. Basically the legal effort to restrain this Board seems to have resulted from the action it took in a case involving a complaint of excessive force used in making an arrest. The police officer concerned was exonerated in a trial before a city court. A regular police trial board then heard the case with all the wit-

# Brown, Liberals Win at Cal. Democrat Meet

FRESNO, Feb. 15 (AP)—Governor Brown and the party's liberal elements came out the big winners of the California Democratic Council convention.

In a three-day conference that brought three Democratic presidential hopefuls before 3500 delegates:

Brown won endorsement of his water program.

The CDC also, in a policy statement, called for repeal of the Connally Amendment under which the United States reserves the right not to submit to World Court jurisdiction on issues that are wholly internal and not subject to international law.

Also favored in the "policy statement was the CDC's long-term aim in the quest for peace, the remodeling of the United Nations into a world organization that can enact world law, interpret it, and enforce world law upon individuals and governments alike."

Bennet Skewes-Cox, chairman of the CDC atomic panel, said that despite language of the report calling for world law to govern individuals as well as governments, the "policy" statement really was intended to be limited to the subject of disarmament.

## HIT DISARM POSITION

The CDC report asserted there is reasonable hope Russia is serious in its "current policy of peaceful negotiation," but that America's official position on disarmament appears "divided, weak and inadequate."

Liberals pushed through declarations of policy committing the statewide council of Democratic clubs to such things as:

Abolition of capital punishment.

Adoption of a "Wagner Act" for agriculture and a minimum wage for farm workers.

Repeal of fair trade laws. A broad civil liberties program including elimination of "all remaining vestiges of discrimination in California."

Expanded aid to underdeveloped countries, including dissemination of birth control information and material when requested by the foreign nation.

## FLURRY OF DEBATE

The convention closed Sunday with a flurry of debate over the state water plan and a well-done from Sen. Stuart Symington, democrat of Mis-

souri, for his work.

Symington, invited as the summing-up speaker for the issues conference, demurred only when it came to the question of disarmament.

The delegates went on record favoring world disarmament: If the Geneva negotiations fail, they urged unilateral action by the United States.

Symington said he, too, was for ending the arms race. He cautioned, however, it would be dangerous for this country to strip its defenses when there was no assurance that Russia would do so.

The convention earlier got a look at the party's only two declared candidates for President. They were Sens. John F. Kennedy of Massachusetts and Hubert H. Humphrey of Minnesota.

No effort was made to endorse anyone for the nomination. If anything, the temper of the delegates indicated strong support for the state party's intention to pledge California's 81 national convention votes to Brown, as a favorite son candidate.

## WATER SYSTEM

Labor representatives and some state legislators attempted to block endorsement of the governor's proposal on the November ballot for a 1 1/2 billion dollar bond issue to finance a giant Oroville-to-San Diego water system.

Opposition centered on Brown's refusal to call a special session to revise terms of his plan. The California Federation of Labor, in particular, wants provisions for a 160-acre limitation and public power preference.

The governor instead proposed in January to meet the unjust enrichment question by setting a premium price for state water delivered to big landowners. He also has committed the administration to charging public agencies a lower rate for any project power.

The CDC gave Brown's program a decisive standing vote.

There was no dissent as the delegates approved the policy statement advocating abolition of the death penalty without reference to the case of the convicted Los Angeles kidnaper.

1. Asked Congress to provide for federal voting registrars and referees and advo-

cated amendment to the State FEPC law to outlaw discrimination by agricultural employers.

2. Urged all cities and counties to set up police review boards, separate from law enforcement agencies, to hear citizen complaints of mistreatment by police and recommend disciplinary action. It was asserted minority group members in several cities have been particular victims of brutality.

3. Called for repeal of State and Federal "non-disloyalty" oaths required of public employees, candidates for public office and applicants for educational grants or loans, as well as oaths required under the National Defense Education Act and the State's Dilworth and Luckel Acts.

4. Placed CDC on record in support of Congressman James Roosevelt's proposal to abolish the House Un-American Activities Committee and against any action to "nullify" U. S. Supreme Court decisions "upholding the Bill of Rights."

5. Sought amendment of immigration legislation to provide that after five years an alien could "no longer be threatened with deportation proceedings" and "foreign-born citizens could escape denaturalization actions."

6. Asked President Eisenhower to review the conviction of Morton Sobell, sentenced to 30 years for conspiracy to commit espionage, after trial with Julius and Ethel Rosenberg, atom spies later executed.

7. Accused Postmaster General Summerfield of a "massive censorship campaign" and demanded the post office department be divested of all "censorship" powers, with courts to determine all questions involving obscenity.

8. Advocated strengthening state anti-trust laws. It was asserted small business are being "merged almost daily into increasingly larger concentrations of economic power..."

9. Favored repeal of the "loosely-drawn, ill-conceived, anti-labor" Landrum-Griffin law and giving all public employees the right to organize and bargain collectively. However, it was stated public employees "are not requesting the right to strike against public agencies..."

10. Supported legislation to raise the minimum wage in California from \$1 to \$1.25.

11. Condemned "unrestricted use of foreign-record musical sound track without adequate compensation to the performer wherever he may be" and identification of films as U. S.-made be denied when they contain music produced elsewhere.

12. Asked Brown to call a special session for repeal or modification of the "cruelly

enforced responsible relatives" requiring children to contribute to support of aged and pension recipients.

13. Indorsed federal financial support for teachers' salaries and school construction and recommended a 15 per cent salary increase for University of California and state college faculties.

nesses again testifying. This of course is in itself a type of double jeopardy to which no citizen except a police officer is exposed, but here again the policeman's actions were justified. This Police Review Board then took over, tried the officer a third time, found him guilty and prescribed punishment. This Board had then overruled and superseded the regularly established court, the regularly prescribed police department system of supervision and control of its members, and the duly elected city officials who under the city charter are charged with the supervision and control of all city employees. In many ways this Board seems to have assumed the powers of a revolutionary tribunal or junta.

This is the system that the C.L.U. is trying to impose on the citizens of Detroit with such flowery phrases as, "--give the public a fairer means of appraising allegations of wrongful police conduct, -- promote greater citizen-police cooperation, -- promote greater respect for law and law enforcement, -- help reduce group and racial tension, -- protection of constitutional rights, -- secure a degree of assistance from citizens that makes police work less difficult and more effective --".

All this smug and hypocritical double talk can only remind a person of Hitler's theory that if a lie is to be told it should be a big one, repeated over and over again, and that then some people will believe it. Unlike in Hitler's Germany people have the right to denounce such lies for what they are. In Detroit this unfair, unwarranted and undemocratic proposal of the C.L.U. is being fought with vigor by the Police Officer's Association, by many alert and influential public officials, and most importantly by several newspapers including the Times, the Free Press, and the News. In the face of such opposition it seems unlikely that this particular attempt to hamstring law enforcement will be successful in Detroit but in other cities similar groups, although possibly bearing other names, will certainly be trying to do the same thing attempting to delude and mislead the average citizen with false appeals to American ideals and principles.

#### ADDITIONAL INFORMATION

After the above article was prepared your editor, through the efforts of the National Secretary and the cooperation of the Philadelphia Lodge of the Fraternal Order of Police, received a complete report on the situation in that city. The facts given above are verified, but in addition to the single case mentioned three others involving six more police officers are cited in the legal brief used to obtain a restraining injunction against this Board of Review. The facts of these cases plus detailed additional information of the operations of said Board reveal that its actions were even more outrageous than first reports indicated.

As a source of information and proof your editor and the Secretary now have in their possession a copy of the ten page brief submitted to the Chancery Court of the City of Philadelphia and a two page letter from the legal firm that is representing the Philadelphia police in this matter. To publish this would require all the space in two issues of the Newsletter so excerpts only are given. It should be noted that the above article does not identify the specific group or organization that sponsored or advocated the formation of this Philadelphia Board. This is one point of information desired that was not given. The legal brief states only that this Board was created by the Mayor and alleges he had no power to do so under the City Charter.

The four cases cited in the brief were selected to show the scope and variations of the high-handed activity of this Board. The first as mentioned above, shows that it ignored and overruled the City Court and the regular police trial board which in Philadelphia is officially the Police Board of Inquiry. The second case involves a complaint of excessive force made by a prisoner to the Commanding Officer of two Precinct officers. The investigation made by the Commanding Officer showed that there was no evidence to justify the complaint. This Board of Review immediately stepped in and took over the case, ignored the investigation and report of the Precinct Commander and assumed complete jurisdiction of the case. The third case concerned two officers who made a routine arrest in a numbers lottery case. After investigation and observation they applied for and were granted a valid Search and Seizure Warrant by a duly authorized Magistrate. Armed with this warrant they made the arrest and seized a quantity of evidence. The defendant was held by the court for operating an illegal lottery. In spite of the entirely legal procedure and in spite of the fact that no complaint was made by the defendant of the officer's actions either to the court or to the police department, the Board of Review stepped in and found that the officers had exceeded their authority in making this arrest. The fourth case involved another pair of officers who arrested a man who was beating his wife, had knifed a friend who sought to intervene, and then assaulted the officers. This man was held by the court for a total of eight offenses, some of them felonies. Six months after the arrest although at no time had the officers involved or any police official been advised of any complaint, the two policemen were ordered before this Board of Review and charged with assault, not only on the man in the case but also upon his wife whose life they probably had saved.

In every one of the cases cited the officers were found guilty by this Board. These cases show the wide range of activity of this Board and its utter disregard of the established Courts, the administrative and executive branches of the city government, including the Police Department and its legally established Board of Inquiry. In effect it also ignores the Federal Government which through the Dept. of Justice has the right to investigate and act in any case where a police officer is alleged to have deprived any citizen of his civil rights. The legal brief alleges that this Board when created began immediately to hear all types of cases despite the limited scope assigned to it by the Mayor in his original order. It set up its own system of rules and procedures including a decision to disregard the standard rules of evidence. In other words second-hand, hearsay reports, and undoubtedly prejudiced opinions were treated as evidence.

At the present time under the restraining order issued by the Chancery Court this Board of Review is inactive. Presumably acting under the orders of the Mayor, who still seems to favor this usurpation of power and authority by this Board, the City Solicitor has filed an appeal and the entire matter is pending before the Supreme Court of the State of Pennsylvania. The Chancery Court heard the evidence and arguments from both sides before it issued its restraining injunction that put this Board out of business. It seems hardly con-

ceivable that the Supreme Court would reverse this decision by the Chancery Court. If it does and this Board of Review is re-instated it will be a black day for Philadelphia, not only for the police department but for the great mass of respectable, law-abiding citizens who are the ones that suffer when a power hungry minority gets into power and control.

This is what the Civil Liberties Union wants for Detroit. We can only pray that the responsible citizens of Detroit will have the wisdom and strength never to let it happen.

## Phila. DA refuses to take 'loyalty' oath

PHILADELPHIA, March 19. In a widely publicized denunciation of "loyalty" inquisition, mass hysteria, and witchhunts, Richardson Dilworth, Philadelphia district attorney and its leading Democratic party vote getter, has refused to sign a so-called "loyalty oath". He was Pennsylvania's first public official to take such a stand, although previously Mayor Joseph Clark called the oath "red tape" and said he might sign it some time in the future, but was in no hurry.

While applying only to appointed state employees, including teachers, and to candidates in future elections, a number of already-elected officials were stampeded into mass signing.

"I won't be there," Dilworth was quoted as saying in the Philadelphia Evening Bulletin. "I don't have to take it because I'm an elected official, and I am not going to be party to any mass hysteria.

This isn't a loyalty oath. It will make possible witchhunts and inquisitions. If you don't conform to their idea of Americanism, they can crucify you."

In a similar report, The Philadelphia Inquirer added that Dilworth branded the "loyalty" oath as an "outrageous" procedure resembling methods of the Spanish Inquisition.

### Civil Liberties Union Draws Legion Fire

The American Legion County Council adopted a resolution Friday night assailing the American Civil Liberties Union as engaged in a campaign "to obliterate all opposition to the Communist conspiracy in the United States."

The resolution urged the Senate Internal Security Subcommittee investigate the ACLU, its relation to the Communist international conspiracy and its sources of revenue."

### PHILADELPHIA REVIEW BOARD IN OPERATION

It was reported in the April 15, 1960 edition of the Los Angeles Fire and Police Protective League News that the Fraternal Order of Police in the City of Philadelphia had initiated a law suit and were successful in obtaining an injunction prohibiting the City of Philadelphia and the Philadelphia Police Review Board from hearing further cases. The basis of the suit among other things was that it violated the constitutional rights of police officers of that City in that they were subjected not only to the duly constituted Police Trial Board, the courts of that City and State, but were additionally subjected to the unconstitutional Police Review Board which would hear cases against the Police even after they had been previously heard by the proper courts or the Police Board of Rights. After minor changes the court allowed the board to be re-constituted.

It was deeply disturbing and discouraging when the Fraternal Order of Police in Philadelphia announced that the Police Review Board was again operating. This Review Board has been used as an example by the American Civil Liberties Union in their efforts to create these Boards in other major cities.

### WHO'S PULLING THE STRINGS? Part II

The American Civil Liberties Union's proposed Police Review Board still remains their number one local plot—WHY?

The leading metropolitan newspapers have denounced ACLU's Police Review Board proposal in strong terms. Former Governor Goodwin Knight, the Los Angeles City Council, Mayor Norris Poulson, District Attorney William McKesson a former judge, along with the American Legion, many patriotic civic groups dedicated to American ideals, many television and radio reporters and the press in many of our surrounding communities have laid out in no uncertain terms, valid logical reasons why the Police should not be further hamstrung in their losing battle to protect our citizens from the lawless.

These leaders recognize that in addition to further hamstringing law enforcement, it would be subjecting police officers to a kind of "Triple Jeopardy." They recognize that police officers are citizens who also have rights in the area of due process of law under the constitution of the United States. *They recognize that the police are possibly one of the strongest forces remaining in our society opposing the insidious creeping malignancy of Communism, dope-peddling, gangsterism and ultra-liberal socialistic ideologies.* They further recognize that instead of imposing additional handicaps into the American police concept, that the time has come to support law enforcement in its effort to administer the laws that have been created by the people and their representatives. After all, well trained and confident police stand as a bulwark against civil disorder. *The Communist cause in a non-Communist country can thrive and prosper much more rapidly when they can capitalize on civil disorder; and when the police are made incompetent or ineffective and cannot handle civil disorder, Communism flourishes.*

In analyzing the tactics and strategy of the Communist Party in relation to their arch enemy, local level law enforcement, an extraordinary picture emerges, particularly when we study the recent demonstrations in San Francisco and Tokyo.

In Tokyo a band of devoted Reds skillfully seized the opportunity of domestic unrest to bring Japan to the verge of

Continued on Page 2

Continued from Page 1

revolution. Those charged with maintaining civil order were the Police. Could this happen in America?—Was the recent San Francisco riot a practice skirmish?—Only time will tell.

It is a well established fact that the Los Angeles Police Department has a reputation for effective discipline and adequate investigation of citizen's complaints. But this recognition goes unheeded by the ACLU. As a matter of fact, Loren Miller, an alleged spokesman of the NAACP, has now injected himself into the efforts of the ACLU. Both of these organizations have apparently decided that they are totally qualified to analyze the operations of the Los Angeles Police Department and the police departments in several major cities; and demand that certain changes in the area of discipline (which gives the right to control) be made.

To the normal, reasonable, prudent American citizen, their suggested proposal to create a super-court over a segment of our citizens (our police) is repulsive. They would impose a police review board that would actually supersede our duly constituted courts on civil damage awards and have the fantastic power to disburse taxpayers' funds in the form of bounty up to \$500.00 to each party complaining against the police before this super-court. In addition, fantastically, they would have the authority of subpoena to their public tribunal law enforcement officials and others they deem necessary to attend their hearings. In addition to these powers they would remove the legal necessity to testify truthfully under oath. For the proposed ordinance would supersede the municipal code section which authorizes the City Attorney to file charges of making false police reports—Perjury would be encouraged.

As stated, law enforcement officers subjected to this tribunal would still be subject to our American process of justice, which of course, is our duly constituted courts, and the Board of Rights hearing under section 202 of the Los Angeles City Charter. Surely the duly constituted courts, the Police Commission, charter provisions, City Attorney, District Attorney, Grand Jury, FBI and the City Council have protected our citizens from officers acting in excess of their authority.

*It has been said that the Communist party since its inception in 1919 has waged war on our society and its first line of defense—law enforcement. We must attach significance to the fact that the People's World—(Reprinted in this publication) along with their cartoonist's assistance has also attacked law enforcement in their typical indirect way, by using another questionable organization to quote from. It is interesting that the People's World has devoted much space to the ACLU's various programs, which of course, have included attacks on the House Un-American Activities Committee hearings, attacks on other Un-American Activity investigations and a long line of questionable stands such as their advocated Police Review Boards.*

*It has been said that 1960-61 are target dates for many subversive accomplishments by the Communist Party U.S.A. It has been established beyond doubt that when the Communist Party accomplishes something, they utilize other organizations, most of which have been exposed as parallel front organizations and occasionally unsuspecting groups or individual's who mean well but are uninformed.*

The Communists to be successful in their plot in America, must render law enforcement ineffective. Once this is done, they realize that it is not only relatively simple to stage revolutionary demonstrations, but they are capable of destroying all recognized legal moral safeguards that the police are charged with enforcing. It is apparent that the time has come for the

## LEGISLATURE MAY GET POLICE PLAN

Sponsors of a police review board manned by private citizens will carry the issue to the Legislature or to an initiative vote of the public if it becomes necessary.

Representatives of the sponsoring groups so reported at a Biltmore Hotel press conference Thursday.

Present were attorneys Hugh R. Manes, of the American Civil Liberties Union; Morgen Moten and Herman Smith, of the National Association for the Advancement of Colored People, and Robert Baca, for Mexican groups.

Preceding any other action, however, they said, will be a public meeting June 23 at 2501 S. Hill St., and an attempt thereafter to win approval of the plan from the City Council.

The plan, still in a formative state, would set up a small appointive commission to provide an "open forum" for investigation of charges of police brutality or discrimination.

It would have no punitive power but would submit findings to the chief of police for proper action. However, they added, it could award victims up to \$500 in damages payable by the city.

American people to wake up to the vicious attacks of our enemies.

*Already we have evidence that at least one City Councilman has been requested to champion a Police Review Board proposal through the Los Angeles City Council. We have also been reliably informed that at least one Assemblyman has promised to introduce to the California Legislature a bill which would establish local Police Review Boards by State Mandate.*

Herbert Romerstein, a former member of the Communist Party, predicts the future by telling us, "You'll be facing fire from two sides. One is the question of the establishment of the Police Review Board which can become a permanent instrument of attacking the Police, that is, as each case comes up, the leftists and their friends can make complaints before the Police Review Board and keep the Police Department tied up in constant agitation and litigation . . . The fire on the other front is something that is taking place over a long period of time, and that is the picking out of individual cases and attacking and embarrassing the Police Department in regard to these. It is necessary to organize a counter campaign . . . Let me caution the Police on one very important aspect of this, and that is this whole concept that a Policeman is supposed to be not a law enforcement officer, but a social worker; that human relations are more important than crime prevention . . . this has permeated leftist thinking for many years, and this purpose too is to weaken the Police."

*We policemen are few in number, less than one to each five hundred citizens. If the citizens of our community are to be alerted to the grave threat to their law enforcement protection, you, the policeman must sound the warning. Alert your friends and neighbors and others you come in contact with before it is too late.*

How to stir up a hornet's nest!

# A simple proposal gets the business

Reprinted from the People's World, May 14, 1960 edition.

This newspaper adheres to the Marxist line. Why are they interested in Police Review Boards?

LOS ANGELES—Challenge the self-assured right of policemen to club innocent citizens at will, and you've got the fight of your life on your hands.

That has been the experience of the American Civil Liberties Union, the Natl. Assn. for Advancement of Colored People and kindred organizations here in the past few weeks.

A simple proposal, not yet fully formalized, that Los Angeles establish a Citizens Police Review Board to pass judgment in cases of police brutality and violation of civil rights, and recommend discipline to the Police Commission, has unleashed a campaign of vilification and malicious distortion unparalleled since Upton Sinclair ran for Governor.

Behind the diatribe of public abuse is the Fire and Police Protective League, mouthpiece for the cops, gratuitously assisted by the daily press. Even the City Council has knuckled under to Chief William Parker and his club swingers, and Mayor Norris Poulson, in high dudgeon over community rebuffs, singled out the ACLU and NAACP as whipping boys in announcing he won't run again next year.

## CITYWIDE CONFERENCE

Community forces aren't taking it lying down. The Committee for Los Angeles Police Review Board, consisting of representatives of a dozen or more leading organizations, is going right ahead with plans for a citywide conference in mid-June.

At that time specific provisions of a proposed ordinance will be approved.

Thereafter the plan will be laid before the City Council, and, if not adopted, initiative petitions will be circulated to put the question on the ballot at the time of the 1961 mayoral election.

Meanwhile, the Negro press took up the fight. In a front-page article The Eagle chided the 12 City Councilmen who "bowed low before Chief Parker's Police Department and the

MAYOR POULSON  
Anguished cries

daily newspapers to scuttle in advance the proposal attempting to curb police brutality and lawlessness."

Urging an all-out fight for the Review Board, an Eagle editorial said:

"The practical situation under the present state of affairs is that, except in the most aggravated cases, the civilian whose rights have been trampled on is not only without remedy, but he also runs a grave risk in even making a complaint — he may be prosecuted for merely asserting what he believes are his rights."

## CAREFULLY PLANNED

The police campaign of vilification and distortion was carefully planned and executed.

Police Capt. Edward M. Davis, in his capacity as vice-president of the Fire and Police Protective League, was selected to "break" the story in a speech delivered before the Industrial Security Committee of the Chamber of Commerce. The press was alerted in advance. Hearst and Chandler reporters were on hand, pencils poised, as Davis began.

Criminals were about to take over the city. The police would

be helpless. Davis warned the industrial "security" chiefs that heavens only knew what would happen to plants they were employed to protect.

"This Citizens Review Board could wrest control of the police department away, not only from the hands of the department itself," said Davis, "but also from the duly constituted authority of the city — from the Mayor, the City Council and the courts."

Recklessly accusing the leading civil rights bodies in the city, Davis added, "These organizations are attempting to control police departments, police activities and law enforcement in general. The boards they propose would seek to assume the powers of a revolutionary junta."

## DISTORTED VERSION

The ACLU-initiated Committee for Los Angeles Police Review Board carried on its preliminary study and consultations informally, without any press fanfare. It had set down in a mimeographed memorandum for its delegates' own use various proposals as to the nature and function of a review board. For clarity and convenience these proposals had been drafted in the form of a proposed ordinance.

Boasting that its operatives had managed to get hold of a copy of the private informational mimeograph, the Fire and Police Protective League circulated a pamphlet to all city officials, city councilmen, and to league members, presenting its distorted version and analysis and calling for an all-out campaign to "defeat this plan."

Mayor Poulson, looking for "gripes" to bolster his belly-ache about "everybody putting stumbling blocks in the way of my administration," seized on the Protective League circular as grist for his mill.

"The agitation for a Citizens Police Review Board is only an attempt to hamstring law enforcement," he yammered. He called the proposal "an interference agency."

The Mayor tied up his blast with sundry imagined complaints he had against the City Council. Super sensitive Councilmen went into a tantrum of denials of the Mayor's charges. That gave the Police League another opening.

## ANOTHER OPENING

Capt. Davis and his fellow leaguers got Councilman C. Lemoine Blanchard to bring in a resolution denouncing "an attempt by certain organizations to question the operation of the Police Department of this city by suggesting that an outside agency be set up to review the actions of this fine department."

There were 12 councilmen present, including Edward R. Roybal who many times had advocated a citizen board to handle police brutality and civil rights complaints.

Brow-beaten by the vilification campaign of the Police League and the daily press, mad at the Mayor and eager to prove they weren't responsible for any of the "crimes" he'd ascribed to them — even

# Internal Control of Police By External Forces

Based upon accepted administrative and personnel principles, the internal discipline of the employees of any organization is a matter for the management of the concerned organization. The right to discipline carries with it the power to control the conduct, actions, and attitudes of the employees of an organization. When the right to discipline employees is vested with management, management therefore has the essential tools with which to attain the desired behavior from employees. If, however, the ability to discipline employees is taken away from management, or if management must share this responsibility with some outside person or organization, management is then stripped of one of the most essential powers in the operation of any organization. When the employee is subjected to disciplinary actions or disciplinary investigations from sources outside his organization, a fundamental rule of organization has been breached and the employee becomes confused, diffident and inefficient.

The people of the City of Los Angeles well recognized these important principles many years ago. In 1934 the citizens of this City adopted Section 202 of the Los Angeles City Charter which provides that the disciplining of Policemen would be a matter under the exclusive control of the Chief of Police and duly constituted boards of rights composed of command and staff level officers of the Police Department.

The wisdom of the electorate is well testified to by the distinctive record of the Los Angeles Police Department. It is almost unquestioned by lay persons and law enforcement officials that the Los Angeles Police Department ranks as one of the world's finest municipal law enforcement organizations. Section 202, of the Charter, together with an additional Charter amendment in 1937 which requires that the Chief of Police be selected by competitive civil service examination, are probably responsible for this high standing of the Los Angeles Police Department. These provisions insure that neither politics nor special pressure groups can have any substantial influence on the administration of the Police Department if the Police Department and the Chief of Police are operating lawfully. The Los Angeles Police Department and the Fire and Police Protective League were therefore greatly disturbed when they read the proposed ordinance which would establish a Police Review Board for the Los Angeles Police Department.

This proposed ordinance is a shocking document. It provides that there shall be constituted in the City of Los Angeles, a board which will hear and determine complaints from any person alleging misconduct by a Los Angeles Policeman. The term "misconduct" is designed to include mistreatment, false arrest, unreasonable search and seizure, and the denial of civil rights. The board is to be composed of five members appointed by the Mayor with the approval of the City Council. Five different groups will submit five names each. The Mayor and Council will then be required to select the five-man board from the names submitted. Those persons or organization making the nominations would be the presiding judge of the Superior Court, the Chairman of the Los Angeles County Commission on Human Relations, the Chairman of the Political Science Departments of U.C.L.A., L.A. State College, and U.S.C., the Chairman of the Democratic County Central Committee, and the Chairman of the Republican County Central Committee. The board would make findings and recommendations on complaints and send them to the Police Commission and the Chief of Police for "appropriate" action, and the board may refer their findings to the City Attorney with recommendations for

criminal prosecution. The ordinance further provides that the board may award the sum of up to Five Hundred Dollars to each complainant who, in the opinion of the Board, was injured by the misconduct of a Policeman, such sum would be drawn from the City treasury. The board would be empowered to appoint two investigators at an Eight Thousand Dollar salary each. The ordinance further provides that no complainant shall be prosecuted or punished on account of filing a claim, and further provides that no one making a complaint to the Board could be prosecuted under Section 52.50 of the Los Angeles Municipal Code. This code section provides that a person making a false report to the Police Department is guilty of a misdemeanor.

*An element of our society which will look with favor upon the creation of a police review board is the organized underworld. It is noteworthy that in the city of Philadelphia one of the cases in which Policemen were found guilty by the Police Review Board was a case wherein they allegedly violated the civil rights of a previously convicted numbers racketeer when the officers, armed with a lawful search warrant, searched the suspect's premises and seized numbers paraphernalia. It is easy to see how bookmakers, numbers racketeers, heroin peddlers, and other organized criminals would use the Police Practices Review Board to harass and further hamstring the police in their efforts to minimize these unlawful activities. Creation of the board would result in the policeman being on trial in every case wherein he made an effective arrest.*

The ostensible reason for the creation of such a review board is the alleged brutality of police against minority groups. We know for a fact that in the City of Los Angeles that there is no unnecessary force used against minority groups any more than

by association — all 12 Councilmen "bowed low," as The Eagle said, and voted for the Blanchard resolution.

Blanchard, with the cowed Councilmen in the palm of his hand, made a fiery speech for benefit of the reporters before he allowed the vote to be taken.

He ranted about "a vicious organized attempt to undermine the effectiveness of our police department."

### 'NO MERIT'

"Any attempt to place a censorship on the activities of this department would only benefit the dope peddlers, gangsters and other nefarious criminals within our society."

With notable calm, The Eagle replied editorially to Blanchard's diatribe:

"There is no merit in those claims."

"The Review Board plan is simply an attempt to find a way to sift out and determine the merits of civilian complaint against police officers for alleged violations of civil rights and civil liberties. It would replace the present very unsatisfactory situation in which police officers play judge, jury and prosecutor when one of their number is charged with violating a citizen's rights."

### 'FALSE REPORT'

A recently adopted practice of the Police Department makes even the filing such a complaint perilous for the citizen, The Eagle said.

If the police, making their own investigation, "find no merit" in a complaint, the complainant is liable for arrest for making a "false report."

This new gimmick has operated to "scare off" aggrieved persons in some of the most aggravated cases. Citizens tend to take their "pushing around" quietly and without protest, rather than face the possibility of going to jail on a trumped-up "false report" charge.

Announcing the ACLU's intention of pressing its demand for a Citizen Review Board, and carrying the issue to the people through an initiative measure on the ballot, if necessary, Southern California Chapter Pres. Lloyd Smith, said, "The ACLU cannot and will not turn its back on a problem which, if ignored, will give rise to a police-type state."

He suggested that "possibly the police are protesting too much — if they are not violating civil rights or engaging in brutality, why need they be so exercised?"

## "INTERNAL CONTROL OF POLICE"

Continued from Page 4

unnecessary force is used against any other element in our society; however, people desiring to render the police ineffective use alleged leaders of minority groups in their program of vilification against the police. Because of their general conditioning toward a belief that they are discriminated against, alleged leaders of certain minority groups are prone to believe the worse about the treatment of their group by the police. In most cases the alleged leaders of minority groups do not realize how they are being used as a tool to destroy law enforcement which is so essential to these groups, particularly in the lower socio-economic areas of large cities.

Let us look at some of the results which you might expect if your Police Department is placed under a Police Review Board as proposed by the Civil Liberties Union. We say "placed under" advisedly because the power to discipline is the power to direct, and if this board is given coercive disciplinary powers over policemen, they will in fact be directing the activities of the department. Such a board would be the opening wedge for machine politics in the City of Los Angeles. This State has been fortunate not having partisan public offices at the local level. In the big eastern cities with partisan city offices, a machine controlled by members of the dominant political party wield fantastically tight control over the government of the city. Police officials must give considerable concern to pleasing the party machine then in power. This results in partial enforcement of the law and domination of the Police Department by outside forces dedicated to the perpetuation of their regime. Vice is often cultivated and milked to support election campaigns. As you have noted, the proposed police review board would have the County Central Committee of both parties tying the hands of the Mayor in appointing members to the board.

*Organized crime would probably find a sympathetic ear in the proposed board. The Civil Liberties Union's proposal would allow them to move into "false arrest, unreasonable or unwarranted interference with private property, or business, unreasonable or unwarranted use of force, unreasonable search and seizure, unreasonable and unwarranted interference with lawful associations and assemblies . . ." At the present time if unlawful seizure of evidence is alleged, the arrestee's recourse is to the criminal court hearing his case. Under existing rules of evidence if he satisfies the court or the jury that the evidence was unlawfully obtained, his case is dismissed or he is found not guilty. The Civil Liberties Union is not satisfied with the courts in this matter but would give the arrested person further recourse to take his case before the Review Board to cause a policeman to be disciplined for alleged unlawful seizure of evidence. The Philadelphia numbers racket case cited previously makes it clear how members of the organized underworld could further harass the police through the use of the board. If policemen constantly had to defend their actions in doing everyday police work to such a board they would soon learn that it was unhealthy to bother with numbers rackets, book-makers, and narcotic violators who complained to the board.*

That there would be a steady procession of such complaints is a certainty because the proposed ordinance provides an award of up to \$500 to any person who was found by the board to be injured by the alleged misconduct of a policeman, and the complainant would have nothing to lose because the ordinance further provides that a complaining party or witness would not be subject to prosecution under the City ordinance which makes the signing of a false police report a misdemeanor. The complainant would have nothing to lose but \$500 to gain. In the records of the Philadelphia review board, guilty findings against policemen have been indicated after they have been acquitted by both the courts of Philadelphia and the Police Department trial boards, showing that the \$500 reward would many times be granted whether a policeman was guilty or not.

# Determined backers push for LA cop brutality curb

LOS ANGELES — Neither ranting by "big brass" of the Police Protective League nor the fumings of Mayor Norris Poulson and the City Council has derailed plans for a Citizens Board to curb police violence and brutality in Los Angeles.

Details of the plan will be laid before the public next Thursday evening at Sidney Hillman Labor Center, 2501 S. Hill St., by the newly-formed Committee for a Police Review Board, comprised of official representatives of the American Civil Liberties Union and Natl. Assn. for Advancement of Colored People, and individuals active in other community groups.

ACLU Atty. Hugh Manes

said that, once the public is consulted, the City Council will be asked to adopt the plan by ordinance. If the Council balks, petitions will be circulated to submit the proposal to the voters as a charter amendment, at the 1981 mayoralty election.

Assurance the campaign will go forward, despite City Hall outcry, came at a press conference with Manes, NAACP Atty. Herman Smith and Morgan Moten, and Robert Baca and Frank Paz, lawyers in the Mexican-American community.

They rebutted attacks made by officials of the Police League and others, even before details of the proposal were known publicly.

"The League's charge that we seek to disrupt and demoralize the agencies of law enforcement, is patently false," said the Committee spokesmen,

suggesting the League was protesting "too much and too soon" to be convincing.

"In their frantic defense of the tight-minded view that policemen can do no wrong, these gentlemen of the League stampeded the City Council and the Mayor into a prejudgment of our program.

"But all their diverting protestations cannot conceal the hard facts that, in far too many instances, Los Angeles police deal arrogantly, brutally and lawlessly with citizens, particularly in the Negro and Mexican-American communities."

Police League efforts to conceal the "hard facts" of brutality constitute, the lawyers said, "a flagrant disservice to the entire community." They warned that "it should not be necessary for Los Angeles to

undergo a repetition of the infamous "Bloody Christmas" scandal of a decade ago, before steps are taken to curb police malpractices.

No adequate remedy is now available. Brutality complaints are invariably referred to the Police Dept., itself. Here, said the Committee, "in cozy privacy, fellow policemen play prosecutor, judge and jury" in whitewashing the accused cops.

To end "kangaroo court" practices, the Committee proposes establishment of a board of private citizens, appointed by the Mayor and City Council, with authority to investigate and determine complaints involving brutality or denial of civil rights; to recommend penalty and, in some instances, fix nominal compensation, to be paid by the city to victims.

## REPRINT OF PROPOSED ORDINANCE

which is filed more than six (6) months after the date of the alleged misconduct.

e. Within ten (10) days of the hearing of any complaint, the Board shall make such findings and such recommendations, in writing, as it deems just, equitable and proper. Such findings and recommendations shall be sent to the chairman of the Police Commission and to the Police Chief of the City of Los Angeles for appropriate action, and a copy of such findings and recommendations shall also be sent to the complaining party.

f. In the event of a finding of misconduct by an employee of the Los Angeles Police Department, the Board may refer such findings to the City Attorney with recommendations for prosecution in a court of appropriate jurisdiction.

g. (1) In the event of a finding of misconduct by an employee of the Los Angeles Police Department, the Board may award the person injured by such misconduct compensation therefor not to exceed the sum of Five Hundred Dollars (\$500.00), provided, however, that no such sum shall be paid or disbursed unless such claimant shall execute and file with the City Controller, within thirty (30) days following the date of such award, a written covenant not to sue the City of Los Angeles, the Los Angeles Police Department, or any employees thereof, for or on account of any acts giving rise to said claim.

(2) In the event that the Board shall render a monetary award to a claimant as provided Section g. (1) above, such award shall serve as a lawful warrant upon the treasury, and shall be served by the Board upon the Controller, who shall approve the same for payment, upon receipt of such covenant not to sue duly executed by the claimant as provided in Section g. (1).

h. Publish reports from time to time, but not less than once a year on its work and recommendations.

Section 8. The Board may appoint not more than two investigators at a salary not to exceed Eight Thousand (\$8,000), one of whom shall, in addition to such other duties as the Board may prescribe, manage and supervise the administrative functions of the Board.

Section 9. The Board shall be entitled to the services of a full time secretary whose appointment and employment shall be governed by and pursuant to City Civil Service regulations. Such secretary shall, in addition to such other duties as the Board may prescribe, record verbatim all proceedings before the Board.

Section 10. No complaining party or witness therefor shall be prosecuted or punished for or on account of the filing of a claim with the Board, nor shall any complaining party or witness therefor be prosecuted or punished under the provisions of Section 52.50 of the Los Angeles Municipal Code, for or on account of the filing of a claim with the Board.

Continuing pressure by the American Civil Liberties Union and its newly formed "Committee for a Los Angeles Police Review Board" (commented upon in previous Criminal articles) is being countered not only by the Fire and Police Protective League. Augmenting the League is a formidable entity composed of 24 housewives who form the nucleus of what is known as "The Network of Patriotic Letter Writers."

The stated purpose of this group is primarily to counteract efforts of left-wing, Communist, and pro-Communist elements in the United States who attempt to influence legislators, the press, and the public through mass letter writing campaigns. If not original, the Patriotic Letter Writers' approach is at least novel.

This sheet being mailed to 3,000 addressees by the Network of Patriotic Letter Writers covers copies of literature issued by the Los Angeles Fire and Police Protective League, supporters of the Los Angeles Police and Fire Departments, arguing against proposals of the Los Angeles American Civil Liberties Union (ACLU) for a police review board. ## TRIPLE JEOPARDY

A Documented Editorial

### WHO'S PULLING THE STRINGS?

Next month the A.C.L.U. (American Civil Liberties Union) plans a conference in Los Angeles. The subject of this conference will deal with the method that must be employed to create a Police Review Board in Los Angeles.

For some time now, on a national level, various organizations including the A.C.L.U. and the N.A.A.C.P. (National Association for the Advancement of Colored People) have been active in attempting to create Police Review Boards independent of the Police agency. Your League has been closely following the efforts of these organizations and had hoped that when these organizations were informed that Los Angeles Police Officers work under Charter provisions which afford adequate supervision and control that their "push" would cease. This, obviously, has not happened. We now find it necessary to objectively point out to the citizens of our city and state the inherent dangers in Police Review Boards as advocated by the A.C.L.U.

#### California Democratic Council Joins Chorus

Immediately following the U.S. Civil Rights Commission hearings in Los Angeles last January, increased local pressure and activity was exerted by individuals and organizations who have been identified as advocating Police Review Boards. Last February the California Democratic Council adopted recommendations to urge all cities and counties to create Police Review Boards independent of the police agency to hear citizens' complaints of mistreatment by the police and recommend disciplinary action.

#### National Lawyers Guild Urged

Last month Mr. Hugh Manes spoke to the National Lawyers Guild in Los Angeles and stated that the A.C.L.U. fostered and adopted the Police Review Board program. He further stated that the N.A.A.C.P. and several Latin or Spanish groups had also adopted the program.

It has been reliably determined that the A.C.L.U. meeting is tentatively scheduled for May, 1960 and that they intend to determine at that meeting whether to attempt the creation of a local Police Review Board by

### Serious Problems in PHILADELPHIA and DETROIT

The Police Departments of at least two major cities of our country are the targets of campaigns directed and inspired by so-called minority groups which if successful could undermine the efficiency and sap the morale of these law enforcement agencies. The specific purpose of these campaigns is the establishment of a citizens committee or board which could in effect wrest the control of a police department away not only from the heads of the department itself but also from the duly constituted authority of the city, from the mayor, the city council, and the courts. In Philadelphia this campaign has already achieved success in the establishment of a Police Review Board composed of five citizens.

In Detroit by the use of high sounding phrases that are worthy of a better cause, the American Civil Liberties Union is trying the same tactics that it and similar organizations that thrive on the social tensions they are supposed to alleviate have tried in other cities. Devoid of all fancy words and wrappings these organizations are attempting to control police departments, police activities, and law enforcement in general.

Every police department in our country is and should be controlled by the public it serves but this control must be by all the citizens and not by any one segment swayed and prejudiced by the emotions and tensions of a single group, or of a certain time or place. A civilized society makes its laws and the police profession is its agency to enforce them. Unless society is able to enforce the laws it lays down for all its members it will not long exist in a civilized state. The direction and control of police activities, not only the making of the laws but their enforcement must be the right of society, of all the members that make up a community. The methods of exercising this supervision of police activity are well established and entirely adequate. Any attempt to introduce biased interference and unwarranted restraints by and for a minority segment of the population is contrary to the interests of society as a whole. The supervision and guidance of law enforcement by the general public is lost and power is placed in the hands of a few who have their own selfish interests and motives.

Dear [redacted]

I called the other day regarding the attached papers. I received them while on vacation earlier in July. The agent on duty suggested I send them to you since we have known each other since the time of the disappearing furs from airfreighters.

I don't know how these people obtain my name and address. I think the papers appear to be a sincere patriotic effort. After reading them a second time I'm curious about the items on the first or white sheet which I've numbered 1 and 2 and marked in red. Is this a clever disguised way of suggesting the very thing the papers seem to condemn -- are they suggesting a "breakdown of law and order" while pretending to support the LAPD? Personally I'm a strong supporter of the LAPD and its record as well as local police in surrounding areas. As far as your own people are concerned -- your the best.

Have you heard of this organization? Is it on the level? If not or there is doubt would you like me to reply or write telling them how much I think of their work and asking more about their goals and membership? I think I could do it convincingly. If you want me to do this, return the papers if not and its unimportant destroy them.

I'm willing to help if I can.

Very truly yours,

3. The Communist Peoples World of 6/18/60, announced that massive non-violent picketing will be coordinated with great rallies, previous to the Convention!

WHAT A FIELD DAY FOR PROFESSIONAL AGITATORS AND SOVIET PROPAGANDISTS

Mr. James Haggerty says of the riots in Japan, "It is obvious that the demonstrations were carefully planned by a group of professional organizers." (U. S. News & World Report, 6/20/60)

Tass News Reporters and Soviet TV and Movie camera men, all accredited to the Press Gallery, will take full advantage of these demonstrations for GLOBAL PROPAGANDA of the Soviet Union. (See SPX Report, Soviet Principle Ten of War, by Tom Hutton.)

1. ALL THAT STANDS BETWEEN US AND A COMPLETE BREAKDOWN OF LAW AND ORDER (if riots occur here as they did in San Francisco) is our

DEDICATED AND UNEXCELLED POLICE FORCE!!

2. A breakdown of Law and Order could well result in setting up POLICE REVIEW BOARDS, now being actively pushed by the American Civil Liberties Union, and other groups.

Immoral and Lewd Motion Pictures

b6

b7C

The so-called North Hollywood Ministerial Association is reportedly studying a plan to combat immoral and lewd motion pictures by publishing a list of "recommended movies."

This endeavor was commented upon yesterday in the San Fernando Valley section of the Los Angeles Times which quotes the Association's [redacted]

[redacted] saying "We would like to see something stern done about the current crop of movies". Emphasizing that there are still many good movies being made [redacted] charges that there has been a lowering of standards of the movie code so that in general the tone of movies has been bad.

The North Hollywood Ministerial Association is not alone in its observations and aims. Even some of the Hollywood movie columnists of late have included barbed remarks in reviews of movies and television shows. Then, too, there is the so-called "Network of Patriotic Letter Writers", [redacted] Ordinarily this group confines its activities to direct combat of communism, but perhaps it wasn't deviation from that line which caused [redacted] to put together a strong editorial against the movie "Spartacus".

b6

b7C

However, legal counsel caused her to modify publication plans, and she now plans to content herself by putting her material on "Spartacus" into appropriate official hands. Additionally, she will lend encouragement to the North Hollywood Ministerial Association by forwarding to that body certain published material such as the comments about "Spartacus" in Variety, October 7, 1960. This trade paper says of the twelve million-dollar Universal-International production, "There is without any doubt more violence, more frank sex exposition per frame in 'Spartacus' than has yet been put on the screen in any single picture."

**Re Los Angeles airtel 10/25/60.**

[redacted] former Special Agent of the  
FBI, currently a [redacted] on 12/14/60  
confidentially advised as follows:

In the recent past, one or two representatives of the employees recreation association, Southern California Edison Co., were afforded, along with similar employee representatives of Los Angeles commercial, industrial and financial firms, a private showing of the film "Spartacus" by its Hollywood promoters; and the Edison Company employee representatives agreed to promote the film on a discount price ticket basis among the employee association's 8300 members by display of advertising on the company bulletin boards.

[redacted] stated that when the communist origin and the undue sex and brutality content of the film became known to the Edison security office, it was determined to withdraw from company bulletin boards the Spartacus display cards. It was further determined to afford tickets to Edison employees only on an "ask-for" basis.

[redacted] stated that this resulted in the sale to Edison employees of about only 30 tickets in a potential of 8300. [redacted] said the company thereby gracefully withdrew from the Spartacus promotion and afforded the film virtually no box office support.

## THE HOUSE RULES COMMITTEE

U R G E N T - - Congress convenes January 3, 1961.  
The following could be the first order of House business.  
**YOUR HELP IS NEEDED.**

### "LIBERAL" COALITION MOVES AGAINST HOUSE RULES COMMITTEE

House "liberals" are struggling behind the scenes to curb the authority of the important House Rules Committee .... that committee which determines which bills will go to the floor of the House; when; and under what circumstances (such as time allowed for debate; whether amendments will be accepted; etc.) In the past this key committee has been a bulwark -- stemming the flood of unreasoned welfare state proposals, providing ample time for discussion and debate of critical issues.

If the "liberals" succeed, the Committee, presently made up of 8 Democrats and 4 Republicans, would be virtually powerless (because of the proposed changes). If the "liberals" succeed, the gates will be opened for a flood of new legislation which could add another \$12 to \$15 billion to the annual financial cost of federal government, and take away even more of our individual rights and resources.

### THE CAMPAIGN AGAINST THE HOUSE RULES COMMITTEE IS REGARDED AS SERIOUS.

ALL INFORMATION CONTAINED  
HEREIN IS UNCLASSIFIED  
DATE 03-21-2006

It is being opposed vigorously by conservative members of Congress (in both parties) who believe in assuring adequate consideration of legislation.

One of the threats being posed by the "liberals" is to force Congressman H. W. (Judge) Smith (D-Va.) out of the chairmanship through loss of party seniority. A similar attempt is being made against Congressman William Colmer's (D-Miss.) party seniority. Both Smith and Colmer have in the past frequently voted to check "liberal" legislation by forcing a tie vote (which under present committee rules is a "negative" vote).

### OTHER THREATS (or attempts) BY THE "LIBERAL" COALITION ARE:

- a. Change the tie vote to a "yes" vote.
- b. Increase the membership of the committee and thus load the Committee with "liberals".
- c. To elect the chairman of the Committee by the House as a whole -- thus doing away with the traditional chairmanship through seniority.

It may be, of course, that the "liberal" forces -- sensitive to the rising tide of opposition from the South -- will not push any real moves to change the Rules Committee. They may realize that such an attempt to depose Smith and Colmer, etc. could well cause Southerners to close ranks tightly, to solidify the conservative coalition, and thus to close the curtains on the move to change the structure of the House Rules Committee.

However, IT IS IMPORTANT THAT CITIZENS THROUGHOUT THE REPUBLIC MAKE THEIR FEELINGS KNOWN ON THIS -- That they take a firm stand behind the traditional structure of the House Rules Committee and preserve this important governmental safety-device which permits proper and careful consideration of all bills presented.

HERE IS HOW YOU CAN HELP!

Pick one or more of the following 4 points -- NOW!

1. Contact your Congressman by wire, letter or post card.  
Urge him to vote against ANY moves to weaken the House Rules Committee. Cite the importance of keeping the Committee structure as is. (List of all Congressional Representatives is enclosed)
2. Telephone or write your friends, and urge them to contact their Congressmen. (Share your list of Representatives with your friends).
3. Send carbons of all letters to Hon. H. W. Smith, Chairman, House Rules Committee, Old House Office Bldg., Washington, D. C.  
Commend "Judge" Smith for his dedication, urge him to continue to stand fast and fight the fight.
4. Write the Editor of your local newspaper, setting forth the importance of maintaining the House Rules Committee. If you know the publisher, suggest he do an article on the importance of The House Rules Committee and why it should be preserved as it is.

IF WE ARE TO LIVE UNDER A RULE OF LAW  
RATHER THAN A RULE OF MEN (or of pressure groups)  
WE MUST MAINTAIN THE STRUCTURE OF  
THE HOUSE RULES COMMITTEE

Citizens Action Committee,  
P. O. Box 225,  
Merced, California.

Note: We would be glad to include, in future regular mailings to you, 1 or 2 extra copies for friends, if you so request. Otherwise you may order copies of this Bulletin for a donation of 10¢ for a single copy, or 2¢ each in lots of 50 or more, to cover the cost of printing and mailing.

Keep this Bulletin for reference; you will receive more on other subjects.

## COMMUNIST TARGET - YOUTH

STALIN said in 1932, that it would be absolutely necessary to convince Youth that COMMUNISM WAS SUPREME... and make them familiar with Communist Ideology. One way is... by MASS DEMONSTRATIONS ON A LARGE SCALE. (HUAC\* Report "Communist Training Operations" Part 2, Feb. 2-3, 1960, page 1405)

### HISTORICAL BACKGROUND

WORLD YOUTH CONFERENCE initiated in 1945, with delegations from 63 countries, was communist instigated. The conference planned the INTERNATIONAL UNION OF STUDENTS, (IUS), and the WORLD FEDERATION OF DEMOCRATIC YOUTH, (WFDY). The "brainwashing" campaigns of the IUS and WFDY have been carried out by Youth magazines, Cultural Exchange activities, Sports Events, Press and Information, Children's Bureaus, Rights of Youth Commissions, and PEN-PAL Services. (HUAC Report, "Communist Training Operations" Part 2, Feb. 2-3, 1960. Pages 1406, 1410)

WORLD YOUTH FESTIVALS were planned in 1946 and have proved a most effective means of promoting communist causes. (HUAC Report, Feb. 2-3, 1960. Part 2, page 1407)

### AMERICAN CAMPUSES PRIME TARGETS FOR COMMUNIST INFILTRATION AND RECRUITMENT-

DOROTHY HEALEY (top official of the So. California District, Communist Party), reported to the district convention, April 1957, "... while we cannot yet answer what type of Marxist Youth Organizations should emerge... we can state that high on the priority list... should be the planned and conscious approach toward... YOUNG PEOPLE IN MASS ORGANIZATIONS and UNIONS in which we participate," (HUAC Report, So. Calif. District, Communist Party; No. 259, page 61. 1959)

### ARE THESE ORGANIZATIONS SOFTENING OUR YOUTH TOWARD COMMUNISM?

1. THE NATIONAL STUDENT ASSOCIATION, (NSA), champions the same communist party line as the ACLU on "civil liberties, academic freedom, the right of Communists to teach, opposition to the LOYALTY OATH, and the need to abolish the House Committee on Un-American Activities." (from NSA Publications; Dr. J. B. Matthews' article in "Facts in Education", of Sept.-Oct. 1958; also "Facts" of July-Aug. 1960) \*\*
2. AMERICAN FRIENDS SERVICE COMMITTEE, recommended for investigation by the "REEGE" Committee investigating tax-exempt Foundations. (HUAC Report No. 2681, pp. 186, 187 - 211, 221-302, 351). From the AFSC High School Desk, Hal Stallings uses scare techniques in urging teenagers to join "Walks For Disarmament." (from original letter, Box 991, Pasadena, California).
3. "FORECAST". A Youth magazine put out by the Fellowship of Reconciliation, (FOR), advocates "JOIN A YOUTH CELL NOW. Pacifists can be more effective when working together," (Calif. Senate Investigating Committee 3/13/56, page 71).
4. ADVANCE. A New York City Marxist Group, publicized in the Communist Worker, 2/28/60; "adopted an educational program which supported the Student Committee on Progressive Education and the Faculty of Social Science." "The Faculty of Social Science is successor to the Jefferson School," which was listed by the Att'y Gen. as Communist front, 4/22/53. (14th Report, Calif. Senate, Mar. 13, 1956, page 136). Also (HUAC Report, part 3, "Communist Training Operations", page 1491)

From: [redacted] of Schools

Re: The Motion Picture Spectacle, Spartacus

We are taking the liberty to send you some information regarding Spartacus, the current motion picture spectacle. This information is in response to inquiries from a considerable number of school people, parents, and organizations.

We have found that Spartacus is at the center of sharp controversy. For example, the American Legion, the Moral Rearmament organization, and patriotic organizations such as the Tuesday Morning Study Club maintain that Spartacus was Communist-inspired, written, and produced, and is now being actively promoted by the Communist apparatus all over the country. (See attached materials which support this point of view.)

There is reason to believe that the Spartacus backers and promoters are engaging in one of the most extensive box-office campaigns in motion picture history. They offer reduced rates for special student performances on certain days and make available a Teacher's School Kit and Study Guide prepared, innocently or otherwise, by the National Council of Teachers of English. They invite student body officers to be their special guests and then urge these officers to editorialize about the show in their school papers. This has been done in some places. Teachers' organizations are urged to attend Spartacus to secure funds to augment their treasuries.

Mayors of cities have been asked to proclaim a Spartacus Week or Day, and city councils have been urged to present resolutions backing the production. Clubs and organizations have been approached to sponsor theater parties and are allowed a percentage off for a designated charity. Spearheaded by the Hollywood AFL-CIO Film Council, members of labor unions are supporting the show. In short, the big push seems to be to secure box-office attendance.

We are not telling you what you and your associates should do about this situation. However, we did feel obligated to share with you the information that has been made available to us.

### "SPARTACUS" Study Guide

With an initial printing of 100,000, for use in the schools, Photoplay Studies has prepared a 32-page study guide on "Spartacus", Bryna production being released by UI. The guide, with a two-color cover and twice as large as any previous Photoplay Studies Guide, is profusely illustrated with stills from the picture and treats extensively with the story of "Spartacus".

### "SPARTACUS"

The origin of the "SPARTACISTS" is explained in the basic textbook used in Freshman History classes at Stanford University. In Dr. E. N. Burns' "Western Civilization", p. 380, he explains the causes of the breakdown of law & order in Germany before Hitler. "A cause of more than minor importance was the fear of BOLSHEVISM. The followers of this philosophy in Germany originally called themselves the 'SPARTACISTS'...subsequently they changed their name to COMMUNISTS."

## 'Spartacus,' \$12 Million Film Written By Communist

By M. C. MALONEY  
Register Staff Writer

The "biggest picture ever made in Hollywood" was premiered last night in traditional Movieland fashion as "Spartacus" made its debut.

"Spartacus" was written by an admitted Communist, Howard Melvin Fast.

The screen play for the Kirk Douglas-produced film was written by Dalton Trumbo who served time in a federal jail for contempt of Congress because he refused to affirm or deny his membership in the Communist Party. Fast also was sentenced to a three-month jail term for contempt.

Los Angeles' city council was so impressed by Douglas' \$12 million effort that it named Monday as Kirk Douglas Day in the City of the Angels. Councilwoman Rosalind Wyman presented the resolution commending Douglas for making the movie in Hollywood.

"It can be hoped that his courage and success in countering the runaway production trend may deter other major film producers from depriving Hollywood workers of employment in favor of cheaper and less skilled labor abroad," Mrs. Wyman said.

#### Supported Spies

Author Howard Fast's "Spartacus" was published in 1952. A little more than a year later Fast took up the cause of convicted atomic spies Ethel and Julius Rosenberg. Two days before

Christmas of 1953, Fast participated in the Civil Rights Congress "clemency train" march to Sing Sing State Prison in New York to honor the Rosenbergs.

"You walk like heroes," Fast wrote in a poem dedicated to the pair of traitors who were subsequently executed. Fast called the period the "country's deepest shame."

"Spartacus" takes its name from the Spartacist slave rebellion against Rome. The film is billed by its makers as "the biggest picture ever made in Hollywood." The name of Spartacists was used more recently by the extreme left wing of the German Communist Party which is credited with undermining the German democratic government to such an extent that it lost control and paved the way to Hitler's rise to power.

#### Stalin Peace Prize

In 1953, following his writing of "Spartacus," Fast was awarded the Stalin Peace Prize. He described the award as "the highest honor that can be conferred on any person in these times." That same year Fast was selected by the Moscow jury, which names the award winners, to present the Stalin Peace Prize to Paul Robeson. Fast made the presentation in New York's Harlem.

Named with Fast to receive the award was a Swedish physician, Andra Andreen. According to the Daily People's World, official organ of the Communist Party on the West Coast, "the Swedish

woman was a member of the Neutral Scientific Commission that 'scientifically confirmed' charges that U.S. forces waged bacterial warfare in Korea."

Action against Fast's books has come from at least two sources. In 1952 his books were removed from overseas libraries and, in 1947, his book "Citizen Tom Paine" was banned from all public school book shelves by the New York City Board of Education.

The Hollywood Reporter last month stated that a study guide to "Spartacus" was being prepared for use in schools. The film colony publication said the guide had an initial printing of 100,000.

Fast, in 1957, apparently split with the Communist Party over what he called "evidence of anti-semitism in the Soviet Union and by the revelations in Nikita Khrushchev's speech of injustices during the Stalin regime."

"I am neither anti-Soviet nor anti-Communist, but I cannot work and write in the Communist movement," he said in a copy-righted article in the New York Times.

The article stated Fast said he had been a Communist Party member for almost 15 years.

The People's Daily World in reporting the rift, said Fast had been the author of a column in The Daily Worker, long-time mouthpiece of the Communists in the United States but now defunct, which was reprinted in the People's Daily World.

Some may take exception to the brutal nature of "Spartacus" and not without cause in a couple of sequences. For instance, when Olivier as the voluptuary patrician General Crassus slits the neck of a gladiator and his face is spattered with the victim's blood, or in the savage climactic battle between the slaves and Roman legions when a warrior's arm is severed by a sword. Realism has its place, but there may well be a limit to the shock audiences can be expected to take in Technicolor and on the magnified 70mm film.

There is without any doubt more violence, more frank sex exposition per frame in "Spartacus" than has yet been put on the screen in any single picture. Yet it is overall not offensive, for it is part of a soaring pictorial canvas (Continued on Page 4)

### Saturday Review

OCTOBER 1, 1960

A help, too, is the sharp direction of Stanley Kubrick, who evidently doesn't believe in relaxing his vigilant camera, even when he has more than three hours in which to dawdle. If occasionally he indulges in the kind of shock that has become customary in the form, at least he does it inventively. An overly brutal guard in the gladiator school is drowned in a bowl of hot, thick soup, a hand is severed clean off during a moment of battle. For the most part, though, he is concerned with story essentials, and usually manages to avoid the cliché when he chooses the perspective from which to view a scene. One outstanding moment is that in which the homosexuality of Crassus becomes clear; another occurs when Varinia is given to Spartacus in his cell. The cruelty involved in the training of gladiators is stressed more through vivid glimpses of the training methods than through bloody combat. Here the editing of Robert Lawrence adds to the effectiveness. All in all, Mr. Douglas and company have managed to breathe new life into ancient Rome.

EXCERPTS FROM REPUBLICAN PLATFORM  
1952

Editorial - Chicago Tribune, Friday, Nov. 7, '58

"We charge that they (the Democrats) have choked opportunity and hampered progress by unnecessary and crushing taxation. They claim prosperity, but the appearance of economic health is created by war expenditures, waste and extravagance, planned emergencies, and war crises. They have debauched our money by cutting in half the purchasing power of the dollar."

"Those in control of the party in power have, in reality, no foreign policy. They swing erratically from timid appeasement to reckless bluster."

"We shall eliminate from the State Department and from every other federal office, all, wherever they may be found, who share responsibility for the needless predicaments and perils in which we find ourselves. We shall also sever from the public payroll the hordes of loafers, incompetents, and unnecessary employees who clutter the administration of our foreign affairs."

"We shall see to it that no treaty or agreement with other countries deprives our citizens of the rights guaranteed them by the federal Constitution."

"We shall always measure our foreign commitments so that they can be borne without endangering the economic health or sound finances of the United States. Sums available by this test, if competently used, will be more effective than vastly larger sums incompetently spent for vague and endless purposes. We shall not try to buy good will."

"We shall review our entire preparedness program and we shall strip it clean of waste, lack of coordination, inertia and conflict between the services."

"By the administration's appeasement of communism at home and abroad it has permitted Communists and fellow travelers to serve in many key agencies and to infiltrate our American life."

"Our goal is a balanced budget, a reduced national debt, an economical administration and a cut in taxes."

And the Democrats were accused of "extravagance and inflationary policies which have cut the value of the dollar in half and imposed the most confiscatory taxes in our history."

"The responsibility of sustaining popular education has always rested upon the local communities and the states. We subscribe fully to this principle."

His superiors in San Francisco have requested him to check into the matter of two or three citizens who have complained to the Post Office Department about receiving what these citizens describe as "hate literature". They requested the Post Office Department take steps to get their names off an apparent mailing list that captioned organization has or at least it was supposed by these citizens that the organization had such a list.

[REDACTED] described the literature which had been enclosed by the complainants and it would appear that captioned organization is attempting to discredit the authors of the literature, rather than to circulate it.

[REDACTED] wanted to know what we knew about captioned organization. After a review of our files, [REDACTED] was advised that we have conducted no investigation of this organization and therefore we were not in a position to comment concerning it.

[REDACTED] advised his records reveal [REDACTED] was rented and still assigned to a [REDACTED]

[REDACTED] was also advised we were cognizant of captioned organization because of literature citizens had mailed in to this office. An examination of this literature ##### revealed that it would appear to be the same type as described by [REDACTED] above. He was also advised that [REDACTED] has advised this office in the past that above organization is a voluntary patriotic anti-communist association and it would appear the main object of the group is to counter and oppose left wing pressure organizations.

# TREASON?

THE COMMUNIST-PLANNED AND LED "STRIKE FOR PEACE"; (Set for 29 January 1962):

The Communists have planned and are already preparing a world-wide, so-called "Strike for Peace". The purpose of this maneuver is to trap innocent persons, even sincere anti-communists, into cooperating in their own destruction by forcing the free nations to disarm whether Russia does or not.

In order to see through this incredible treachery, we must understand the following:

- A. A Communist Front - an organization with an innocent-sounding name, used by the Reds to snare the unwary into carrying out the Communist's plans to destroy us. Some identified "Fronts" are: The American Committee for the Protection of Foreign-Born, The American Peace Crusade, The American League for Peace and Democracy, American Women for Peace, etc., (Many others are extremely suspect, though not yet proven).
- B. Communist Propaganda: This reaches the American people on three levels:
  - (1) Communists' publications for Communists, as The Daily Worker was in New York. These reach a very limited audience. The next two are the really dangerous types.
  - (2) Publications pretending to be intellectual, but carrying the "party line" to unwary readers who may be teachers, writers, government officials, radio and television commentators, etc., "The Nation" magazine has had Reds as editors, but is still found in many school libraries.
  - (3) Soviet propaganda carried by those who, consciously or unconsciously, have picked it up on the first two levels and plant it in our everyday radio, television, schools, etc.... (Don't you recall the campaign to white-wash Castro, a known Communist from his very beginnings?)

We must realize that the Reds, though dedicated to world conquest, fear the power of the free world military. The Soviets trust none of the satellite troops - the Hungarians, Poles, Czechs, etc. - nor can they rely on their own Russian troops, since hundreds of thousands of them deserted to Hitler and fought against Communism.

Thus, to win against the free world, the Reds must use treachery. A favorite trick has been to persuade the opposition to disarm in the guise that this will promote peace. If anyone foolishly trusted them, the Soviets would win. The helpless...

# WHY STAY IN THE U. N. ?

## A Millstone 'Round Our Necks

(Reprinted from THE INDIANAPOLIS STAR)

Two weeks ago we quoted the Wall Street Journal as saying that the United States is "no longer master of its own foreign policy." Developments this last week make that even more obvious.

At his press conference President Eisenhower was asked if the United States planned any economic aid or border protective actions in the Middle East. He replied, "These things should be done in the United Nations. And we are prepared to go along with any decision of that kind."

What he is saying is simply that he has committed the people of the United States, the economic and military power of the United States, in advance, to do whatever the United Nations tells us to do. He doesn't even know what the U.N. might do. Yet so slavishly devoted to the idea that the United Nations comes before everything else is he, that he is willing to submit America's freedom of action, America's policies and plans to United Nations direction.

So, we are no longer "masters of our own foreign policy."

Other nations, large and small, are telling the United States how it should act, when it should act, how much it should spend and whether or not it must suffer war or privation. The American people have nothing to say about how their power is being used. The Congress is brushed aside or stands aside while the fortunes of our people, the future of our institutions, and liberty we prize above all else are placed into the hands of nations that neither know nor care about the interests of the United States.

For years our government under both parties has operated under the delusion that the United Nations can solve the world's problems in the face of failure after failure and war after war. We have put ourselves at the service of the United Nations and every time come out the loser. We have suffered humiliation, our first military defeat, continued loss of power and prestige to the Soviet Union. It was the United Nations that kept us from winning the Korean war and freeing North Korea. It was the United Nations that stalled us and stopped us from saving north Viet Nam from Communist China. It was the United Nations that haggled and hesitated and fumbled while Russian troops battered down the free people of Hungary in merciless slaughter. And now it is the United Nations that is going to decide what the United States should do in the Middle East!

This is the slow but sure way to national suicide. No other nation is so dumbly subservient to the U.N., weak or strong. The French roughly told the U.N. to stay out of its affairs in Algeria. The British ignored any U.N. attempt to interfere in Cyprus. The Soviet Union has told the U.N. time after time to keep its nose out of Hungary or Poland or any other place where Soviet interests are involved. Even little Israel has told the U.N. to stop monkeying around with its borders and the Arab refugee problem, and the U.N. stopped monkeying.

But not the United States — the great and powerful and rich United States —

## EDITORIAL OPINION

### MOSTLY POLITICAL

By Don Carpenter

#### WHAT WILL THEY TELL THEM?

Oftentimes, for the sake of argument, one must stipulate to certain points as facts. Let's hope that our friends who see no danger in the communist program will agree for the time being, that there is such a danger and that the danger may suddenly overcome America, just as it did Czechoslovakia. What will you tell your children?

Let's say, for the sake of argument, that the Reds assume control, they are in control of communications, they are in control of public utilities, they have slaughtered or imprisoned the police, they have clobbered resistance, and America lies prone, awaiting the blood purges that must certainly follow, enduring the terrifying period of vacuum before the caked heel of Godless communist tyranny comes smashing down.

What will you tell those youngsters clustered at your knee? How will you tell them that their nation, strong, dynamic, compassionate a few years ago, is now gone? How will you tell them that you cannot go to the store and buy food for them because the store is locked against its owners and that your money is no longer any good? How will you tell them that the policeman on the corner is no longer a friend — he has been replaced by a tyrant from the steppes of Asia or from the jungles of Africa? How will you tell them that the America your fathers gave to you, has been lost?

What will you say when your little son, who feels you are a Marshal Dillon or a Hopalong Cassidy, asks you why you don't take a gun and go out to set things straight? What will you say when your teenager asks you what you have done to prevent this takeover? Will you tell him you played golf or went fishing or learned to waterski or worked in the garden or learned to make ceramics or hiked in the hills or a million other things, while your nation went down the drain?

What will you say when these children, whose lives have already been blueprinted for them, ask what they should do? How will you advise them when they ask if they should resist? What will you say if they ask you if they should continue to adore God, despite the ultimatum of the New Order? What will you do when the order comes to gather your children and ship them into State camps where they can become robots of the State?

Communist writings openly predict that they will seize control centers, and that the great mass of population will lie prostrate. Records show that the lawless of a nation will take this opportunity to swoop down on the helpless, motivated in part by the same drive that causes looting after floods have driven people from their homes. Can you be sure that this will not happen — especially after you read of the riots on Memorial Day in Griffith Park? There certainly was no motivation to justify attacks upon citizens and police, and the destruction of private property. How would these same people react if all law were suddenly eliminated?

Or, suppose you lived through the blood baths, and 15 years from now, your youngsters ask about the America that was. Will you tell them of the freedoms you had, the freedom to go where you wished, to do what you wished, to say what you wished? Will you tell them of the fun you had and the happiness you had? What will you say when they ask how these things happened to slip away?

Will you admit that you dismissed all efforts to halt the drift towards communism as "McCarthyism," that you helped smear everyone who tried to point out the danger?

It may seem a flight of fancy to ponder what could happen to America, but remember — the Pentagon, charged with protecting you and yours from all dangers, foreign and domestic, has already made a study as to the best time to surrender! Ponder that!

If you are a father or mother, look at your children. If they are asleep, walk in and look at

them — peaceful, contented, trusting. Are you doing anything to prevent just such a terrifying picture as we have painted? Do you bother to inform yourself on the drift towards tyranny? Or do you plan to collaborate with the enemy, to "make friends" with the new order?

If America is to be spared this terror, it must be because her people have forbidden it. If the people will not stem the tide, then each American must face the terror that has already been visited upon Czechoslovakia, Poland, Yugoslavia, East Germany, Latvia, Lithuania, Estonia, Manchuria, and many, many other lands.

And, Mister, what will you tell your children?

**THE AMERICAN PEOPLE MUST PROTECT THEIR RIGHT TO KEEP AND BEAR ARMS!**

The second amendment to our Constitution reads: "A well-regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed."

H.R. 613, The Federal Pistol Regulation Act, introduced by Congressman Victor L. Anfuso, Democrat of New York, (whose voting score is only 2% for Constitutional government), will, if passed, require registration with the FBI of each pistol possessed by any person. "Person" in this bill means any individual, company, association, firm, partnership, society or joint stock company. (Agencies of Federal, State, political subdivision of a State and The United Nations are exempted.) Also of great concern is The Federal Firearms Act of 1938 which is still on the statute books, "authorizing" the Secretary of the Treasury to proclaim new firearms control "laws" at any time.

**H.R. 613 IS EVEN MORE SINISTER THAN THE FEDERAL FIREARMS ACT OF 1938!**

It was a firearms registration and control law, similar to the Anfuso Bill, which enabled communists to disarm Czechoslovak patriots and take over their country. It will be the same with us, for there is abundant evidence that the government of the United States, in the interest of world "peace" is actively plotting the surrender of our country to world communist-socialist control. It is only because little Finland had a well-armed and trained populace that she was able to withstand the onslaught of Russia's enormous armies.

The people of the United States should exert great pressure on Congress that Anfuso's Bill, H.R. 613, The Federal Pistol Registration Act, will never be reported out of Committee. More than that, the people should demand outright repeal of the Federal Firearms Act of 1938.\*

### MEDICAL CARE FOR THE AGED, A CRUEL HOAX!

The King-Anderson Bill, which has been introduced in the Congress to provide hospitalization for the aged is a cruel hoax upon the trusting older citizen who would receive inferior medical care and hospitalization under its provisions.

1. It is compulsory and denies freedom of choice.
2. It omits persons not covered by Social Security who have the greatest need and confers benefits upon many persons who can afford to pay for their own medical expenses.
3. It is not an insurance program but a device to impose a steadily increasing tax burden upon the working generation for the benefit of retirees.
4. The cost would be enormous over the years that by the time of their retirement the present workers could not possibly obtain benefits commensurate with the dollar amount of their contributions.
5. The plan would inevitably produce a vast and arrogant Federal bureaucracy with the power to investigate, police, regulate and control the practice of medicine and the administration of hospitals throughout the country.
6. It would restrict and retard the development of medical science in the United States where we now have the highest standard of excellence in the world.
7. The plan would open the door to amendments that would certainly lower the age limits and broaden the scope and benefits of the program until we found ourselves burdened with an all-encompassing national health plan, wholly operated and controlled by the Federal Government.\*

\*(American Coalition of Patriotic Societies, Resolution No. 16 - February 1962)

WRITE TO -- your Senators and Congressman of the dangers inherent in this bill. Suggest that a voluntary approach to health care through Health Insurance Plans will provide better care for all without the billions in cost TO THE TAXPAYER.

### THE TERRIBLE POWER-MONOPOLY OF UNION LABOR BOSSES

James Hoffa, Boss of the Teamsters' Union and Harry Bridges, Dock Czar of the Communist controlled Longshoremen's & Warehousemen's Union, have joined hands. "Here are two labor dictators who, under our present laws, could paralyze the United States in twenty-four hours, even in time of war. They could bring to a dead stop every truck on our highways, every boat coming to or leaving our shores. Hoffa and Bridges are on record as threatening to do just this, defying even the President of the United States to stop them. They wield a greater economic threat than the army, navy and marine corps could ever exercise. Two Labor Czars -- one of them a practicing Communist.\*"

S. 2573, introduced in the Senate by Senator John L. McClellan of Arkansas, will dissolve this absolute labor power within our borders and on the high seas, if passed. "It will end the unfair practice of industry-wide bargaining. It will do more to halt the inflationary wage spiral than any act of Congress in recent years." However, "If Senator McClellan's bill is blocked by the powerful and well-financed Washington labor boss lobby, everything on wheels, except the railroads, will be subject to even tighter Hoffa-Bridges control for years to come."\*

\*(L. F. Reardon, Vice-President, The Manion Forum, March 2, 1962)

ACTION: Thank Senator John McClellan for his bill S. 2573. Bring great pressure on your Senators and Congressmen to push this bill through. WRITE also to Senator Barry Goldwater and Senator Everett Dirksen.

# THE DREAD UNESCO TREATY HAS BEEN RATIFIED

The "Convention Against Discrimination in Education" has been ratified by three nations; France, Israel and the Central African Republic. Its ratification has come with shocking suddenness for, instead of the usual ten or twenty signatures required for most treaties, this one required only three! Since ratification this UNESCO Treaty has attained full legal status. It will be "in force" for the three signatory countries in approximately three months, as set forth in Article 14 of the document.

1. "This convention shall enter 'into force' three months after the date of the deposit of the third instrument of ratification, acceptance, but only with respect to those states which have deposited their respective instruments on or before that date."
2. "It shall enter into force with respect to any other state three months after the deposit of its instrument of ratification, acceptance, or accession."

The first of the above paragraphs describes the situation of France, Israel and the Central African Republic. The second paragraph tells us that the Treaty will not be "in force" for the United States as long as our SENATE REFUSES TO RATIFY IT. Though we helped draft and approve the proposed Convention (treaty) with the help of 10 Communist countries, and technically are morally obligated to ratify it, HOW CAN WE BE MORALLY OBLIGATED TO RATIFY A PROPOSAL WHICH IS IMMORAL?

Its ratification also would give the United Nations a LEGAL BREAKTHROUGH toward its goal of defining the rights of individuals and of placing individual Americans under international law subject to trial and punishment by U.N. Criminal Courts. Overnight United Nations police from any member country could be billeted in our towns, enforcing unwelcome decisions of the World Court, just as is now being done in the Congo. Also with ratification of the treaty, OWNERSHIP OF PROPERTY WOULD BE ILLEGAL. The clever U.N.ers have conspired to use it as a legal breakthrough to place the United States on LEGAL RECORD as accepting the phrase, "economic condition" for the word "property", thus it rejects the concept that property is a right in all free countries.

Another result of the ratification of the Treaty by our Senate or of the Recommendation, (described below), by a joint House-Senate Resolution, would deliver the entire American educational system of teacher-training, curricula, buildings, etc., to international control. It would force private and religious schools to conform or close. There would be no teaching of patriotism, loyalty or good morals. It would police and apply a national educational policy and would require periodic reports to be sent to UNESCO. Any dispute raised by another Nation concerning the Educational system of the United States "shall, at the request of any one of the parties to the dispute, be referred to the International Court of Justice, (World Court) for decision, unless they agree to another mode of settlement."

THERE ARE TWO METHODS OF RATIFICATION OF THE TREATY: EACH WOULD PRODUCE THE SAME END RESULT.

Even if our Senators should remain on guard day and night for the next months and years and successfully

EXHAUSTIVE AND SEARCHING INVESTIGATION INTO THE STATE DEPARTMENT IS LONG OVERDUE!

Difficulties in cleaning out the deadwood, excessive staff and security risks in the swollen State Department may seem insuperable, as most are protected by the Foreign Service Act, the Civil Service Act and the Veterans' Acts. However, security risks can be dismissed. Security risks are those who drink to excess, talk too much, are emotionally and physically unstable and those with questionable affiliations. There is something rotten in the State Department or we would not have lost the Chinese mainland and Cuba to the Reds. The same men responsible for the China and Cuba decisions are now advising our action in Viet Nam, Algeria, the Congo and elsewhere. The American people would like to know why the following men are still active in State Department business ---

Roy A. Rubottom Jr. William Wieland John Stewart Service Dr. J. Robert Oppenheimer  
J. Clayton Miller Owen Lattimore Lauchlin B. Currie Dr. James R. Killian  
Dr. Milton Eisenhower should tell us about William Wieland and the Cuban fiasco.

There are many great men, former Ambassadors, an Assistant Secretary of the State, etc. who are well qualified to give testimony concerning security risks in the State Department. The public has a right to the truth. The hearings must be open!

H.R. 512, introduced by Rep. Richard L. Roudebush, authorizes the Committee on Foreign Relations to investigate the policy making procedures, methods and personnel practices of the Department of State.

**ACTION --** Write again, and again, to your Congressman and Senators and demand an investigation of this powerful department of government.  
**WRITE TO** Hon. Howard W. Smith, Chairman of the House Rules Committee to get this bill out of Committee. Write also to Hon. E. Ross Adair of the House Foreign Affairs Committee, House Office Bldg., Washington 25, D.C.

CENSORING OF MILITARY SPEECHES CONTINUES WHILE THOSE RESPONSIBLE ARE PROTECTED!

The controversy over censorship is a grave matter. President Kennedy's Executive directive has been effective in concealing those responsible. A few examples of blue-penciling follow ---

1. "WAR" crossed off. Censor explains, "war is a dirty word".
2. "CONFLICT" blue-penciled. Censor wrote, "Use a softer term".
3. "BIG LIE TECHNIQUES" changed to "propaganda techniques".
4. "TO BEAT THE COMMUNIST CHALLENGE" rewritten to read, "the threat of foreign aggressors".

Senator Strom Thurmond's findings in this Stennis Committee investigation are not getting through to the public. A "SOFT ON COMMUNISM" policy has very evidently been laid down at high levels in the State Department.

**ACTION --** Encourage and thank Sen. Strom Thurmond for his magnificent efforts to smoke out those responsible. MANY MORE LETTERS must flood Attorney General Robert Kennedy, Department of Justice, and members of the Senate Armed Service Committee. **WRITE TO:**

If anyone foolishly trusted them, the Soviets immediately moved against the helpless people, slaughtering them in droves. Thus died millions of Ukrainians, Hungarians, Armenians, White Russians, etc.... The Communists have never legally taken control of any nation, but only by force or deceit.

Dmitry Manuilsky stressed this in 1930, before the Lenin School of Political Warfare: "War.... between Communism and Capitalism is inevitable.... So we shall begin by launching the most spectacular peace-movements on-record,.... The Capitalist countries, stupid and decadent, will rejoice to cooperate in their own destruction.... As soon as their guard is down, we shall smash them with our clenched fist".

The "Strike for Peace" is a known part of the Communist plan to capture and destroy the civilized world--including you and your family. Reds have revealed that sixty to eighty million Americans are marked for immediate execution if the Soviets seize control.

Watch for the strike "build-up". Notice what papers or writers cooperate, what groups try to carry out the plan. These are your enemies - conscious agents or blind dupes of the vicious conspiracy.

# WHY STAY IN THE U. N. ?

## A Millstone 'Round Our Necks

(Reprinted from THE INDIANAPOLIS STAR)

Two weeks ago we quoted the Wall Street Journal as saying that the United States is "no longer master of its own foreign policy." Developments this last week make that even more obvious.

At his press conference President Eisenhower was asked if the United States planned any economic aid or border protective actions in the Middle East. He replied, "These things should be done in the United Nations. And we are prepared to go along with any decision of that kind."

What he is saying is simply that he has committed the people of the United States, the economic and military power of the United States, in advance, to do whatever the United Nations tells us to do. He doesn't even know what the U.N. might do. Yet so slavishly devoted to the idea that the United Nations comes before everything else is he, that he is willing to submit America's freedom of action, America's policies and plans to United Nations direction.

So, we are no longer "masters of our own foreign policy."

Other nations, large and small, are telling the United States how it should act, when it should act, how much it should spend and whether or not it must suffer war or privation. The American people have nothing to say about how their power is being used. The Congress is brushed aside or stands aside while the fortunes of our people, the future of our institutions, and liberty we prize above all else are placed into the hands of nations that neither know nor care about the interests of the United States.

For years our government under both parties has operated under the delusion that the United Nations can solve the world's problems in the face of failure after failure and war after war. We have put ourselves at the service of the United Nations and every time come out the loser. We have suffered humiliation, our first military defeat, continued loss of power and prestige to the Soviet Union. It was the United Nations that kept us from winning the Korean war and freeing North Korea. It was the United Nations that stalled us and stopped us from saving north Viet Nam from Communist China. It was the United Nations that haggled and hesitated and fumbled while Russian troops battered down the free people of Hungary in merciless slaughter. And now it is the United Nations that is going to decide what the United States should do in the Middle East!

This is the slow but sure way to national suicide. No other nation is so dumbly subservient to the U.N., weak or strong. The French roughly told the U.N. to stay out of its affairs in Algeria. The British ignored any U.N. attempt to interfere in Cyprus. The Soviet Union has told the U.N. time after time to keep its nose out of Hungary or Poland or any other place where Soviet interests are involved. Even little Israel has told the U.N. to stop monkeying around with its borders and the Arab refugee problem, and the U.N. stopped monkeying.

But not the United States — the great and powerful and rich United States. When the U.N. speaks we listen and follow. When we see American interests threatened we go hat in hand to the U.N. for approval or disapproval. We pay a third of its costs and fight and finance its wars, we subsidize its boondoggles and failures. Yet we humbly do what we are told when this international body without any head waves its hand.

What is the matter with the United States government anyway? Cannot our leaders decide for themselves what is best for the American people and just go do it? Have our leaders not the brains, the experience and the courage to run our own foreign policy show in the service of America?

Apparently not. For now we are told that our government is studying a regional development plan for the Middle East run by the United Nations! It was proposed by U.N. Secretary General Dag Hammarskjöld.

If we want America's job done, we ought to do it ourselves. The best way to secure the liberties of our people and the security of our country is to depend upon ourselves. Why can't we do as we have always done successfully—keep strong, keep free from binding commitments to other nations, and decide every policy on what is best for America, first, last and always.

We can only do this successfully if we get out of the United Nations. But if we do, and if we run our own show in our own way, not only the United States but the whole world will be better for it.

## COMMUNIST TARGET - YOUTH

STALIN said in 1932, that it would be absolutely necessary to convince Youth that COMMUNISM WAS SUPREME... and make them familiar with Communist Ideology. One way is... by MASS DEMONSTRATIONS ON A LARGE SCALE. (HUAC Report "Communist Training Operations" Part 2, Feb. 2-3, 1960, page 1405)

### HISTORICAL BACKGROUND

WORLD YOUTH CONFERENCE initiated in 1945, with delegations from 63 countries, was communist instigated. The conference planned the INTERNATIONAL UNION OF STUDENTS, (IUS), and the WORLD FEDERATION OF DEMOCRATIC YOUTH, (WFDY). The "brainwashing" campaigns of the IUS and WFDY have been carried out by Youth magazines, Cultural Exchange activities, Sports Events, Press and Information, Children's Bureaus, Rights of Youth Commissions, and PEN-PAL Services. (HUAC Report, "Communist Training Operations" Part 2, Feb. 2-3, 1960. Pages 1406, 1410)

WORLD YOUTH FESTIVALS were planned in 1946 and have proved a most effective means of promoting communist causes. (HUAC Report, Feb. 2-3, 1960. Part 2, page 1407)

### AMERICAN CAMPUSES PRIME TARGETS FOR COMMUNIST INFILTRATION AND RECRUITMENT

DOROTHY HEALEY (top official of the So. California District, Communist Party), reported to the district convention, April 1957, "...while we cannot yet answer what type of Marxist Youth Organizations should emerge... we can state that high on the priority list... should be the planned and conscious approach toward... YOUNG PEOPLE IN MASS ORGANIZATIONS and UNIONS in which we participate," (HUAC Report, So. Calif. District, Communist Party; No. 259, page 61. 1959)

### ARE THESE ORGANIZATIONS SOFTENING OUR YOUTH TOWARD COMMUNISM?

- ✓ 1. THE NATIONAL STUDENT ASSOCIATION, (NSA), champions the same communist party line as the ACLU on "civil liberties, academic freedom, the right of Communists to teach, opposition to the LOYALTY OATH, and the need to abolish the House Committee on Un-American Activities." (from NSA Publications; Dr. J. B. Matthews' article in "Facts in Education", of Sept.-Oct. 1958; also "Facts" of July-Aug. 1960) \*\*
2. AMERICAN FRIENDS SERVICE COMMITTEE, recommended for investigation by the "REECE" Committee investigating tax-exempt Foundations. (HUAC Report No. 2681, pp. 186, 187 - 211, 221-302, 351). From the AFSC High School Desk, Hal Stallings uses scare techniques in urging teenagers to join "Walks For Disarmament." (from original letter, Box 991, Pasadena, California).
3. "FORECAST". A Youth magazine put out by the Fellowship of Reconciliation, (FOR), advocates "JOIN A YOUTH CELL NOW. Pacifists can be more effective when working together." (Calif. Senate Investigating Committee 3/13/56, page 71).
4. ADVANCE. A New York City Marxist Group, publicized in the Communist Worker, 2/28/60; "adopted an educational program which supported the Student Committee on Progressive Education and the Faculty of Social Science." "The Faculty of Social Science is successor to the Jefferson School," which was listed by the Att'y Gen. as Communist front, 4/22/53. (14th Report, Calif. Senate, Mar. 13, 1956, page 136). Also (HUAC Report, part 3, "Communist Training Operations", page 1491)
5. "NEW HORIZONS", 799 Broadway, New York 3, N. Y. A Marxist Youth publication which claims that young people are searching anew "for RADICAL IDEAS which will regenerate American Life." It stands for an end to the DRAFT, end of compulsory ROTC, peaceful COEXISTENCE, and the usual objectives of a communist-front publication. (from original brochure)

#### THE AMERICAN PEOPLE MUST PROTECT THEIR RIGHT TO KEEP AND BEAR ARMS!

The second amendment to our Constitution reads: "A well-regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed."

H.R. 613, The Federal Pistol Regulation Act, introduced by Congressman Victor L. Anfuso, Democrat of New York, (whose voting score is only 2% for Constitutional government), will, if passed, require registration with the FBI of each pistol possessed by any person. "Person" in this bill means any individual, company, association, firm, partnership, society or joint stock company. (Agencies of Federal, State, political subdivision of a State and The United Nations are exempted.) Also of great concern is The Federal Firearms Act of 1938 which is still on the statute books, "authorizing" the Secretary of the Treasury to proclaim new firearms control "laws" at any time.

#### H.R. 613 IS EVEN MORE SINISTER THAN THE FEDERAL FIREARMS ACT OF 1938!

It was a firearms registration and control law, similar to the Anfuso Bill, which enabled communists to disarm Czechoslovak patriots and take over their country. It will be the same with us, for there is abundant evidence that the government of the United States, in the interest of world "peace" is actively plotting the surrender of our country to world communist-socialist control. It is only because little Finland had a well-armed and trained populace that she was able to withstand the onslaught of Russia's enormous armies.

The people of the United States should exert great pressure on Congress that Anfuso's Bill, H.R. 613, The Federal Pistol Registration Act, will never be reported out of Committee. More than that, the people should demand outright repeal of the Federal Firearms Act of 1938.\*

#### TWO ACTIONS WHICH WOULD CONTRIBUTE TO VICTORY IN THE COLD WAR:

(1) Recognition of the enemy; (2) declaration of Communist arms and munitions in the Western hemisphere as contraband.

H. J. Res. 517 by the Hon. Craig Hosmer of California "directs the President to employ the entire power of the United States to carry on the cold war and pledges all the resources of the country to bring it to a successful conclusion.... The President alone has the broad power and control over the wide range of functions which must be organized, carried on, timed, co-ordinated and pushed to overall success to meet the enemy and to overcome him.... We must quickly train, in our universities and elsewhere, knowledgeable Americans needed to officer and man this new force of our national defense, the cold war fighting force. ... Immediately following our declaration of conflict against the international Communist conspiracy, the Congress should declare contraband all Communist arms and munitions in the Western Hemisphere."\*

H. J. Res. 524, also by the Hon. Craig Hosmer, ... "declares that Communist arms and munitions are contraband in the Western Hemisphere and requires the President to enforce this contraband by appropriate use of United States air power and sea power. ... International law recognizes a right to enforce contraband. It is a peaceful procedure. A United States patrol aircraft spotting a Communist bloc ship headed toward Cuba or elsewhere in the Americas would signal a United States destroyer to intercept and search it. If Communist arms or munitions are found, the ship is warned to turn around. If its captain refuses, or tries again to proceed toward his destination, our Navy can reboard the merchantman and jettison its contraband cargo or bring it to a United States port to have confiscation adjudged."\*

## MEDICAL CARE FOR THE AGED, A CRUEL HOAX!

The King-Anderson Bill, which has been introduced in the Congress to provide hospitalization for the aged is a cruel hoax upon the trusting older citizen who would receive inferior medical care and hospitalization under its provisions.

1. It is compulsory and denies freedom of choice.
2. It omits persons not covered by Social Security who have the greatest need and confers benefits upon many persons who can afford to pay for their own medical expenses.
3. It is not an insurance program but a device to impose a steadily increasing tax burden upon the working generation for the benefit of retirees.
4. The cost would be enormous over the years that by the time of their retirement the present workers could not possibly obtain benefits commensurate with the dollar amount of their contributions.
5. The plan would inevitably produce a vast and arrogant Federal bureaucracy with the power to investigate, police, regulate and control the practice of medicine and the administration of hospitals throughout the country.
6. It would restrict and retard the development of medical science in the United States where we now have the highest standard of excellence in the world.
7. The plan would open the door to amendments that would certainly lower the age limits and broaden the scope and benefits of the program until we found ourselves burdened with an all-encompassing national health plan, wholly operated and controlled by the Federal Government.\*

\*(American Coalition of Patriotic Societies, Resolution No. 16 - February 1962)

WRITE TO -- your Senators and Congressman of the dangers inherent in this bill. Suggest that a voluntary approach to health care through Health Insurance Plans will provide better care for all without the billions in cost TO THE TAXPAYER.

## THE TERRIBLE POWER-MONOPOLY OF UNION LABOR BOSSES

James Hoffa, Boss of the Teamsters' Union and Harry Bridges, Dock Czar of the Communist controlled Longshoremen's & Warehousemen's Union, have joined hands. "Here are two labor dictators who, under our present laws, could paralyze the United States in twenty-four hours, even in time of war. They could bring to a dead stop every truck on our highways, every boat coming to or leaving our shores. Hoffa and Bridges are on record as threatening to do just this, defying even the President of the United States to stop them. They wield a greater economic threat than the army, navy and marine corps could ever exercise. Two Labor Czars -- one of them a practicing Communist.\*

S. 2573, introduced in the Senate by Senator John L. McClellan of Arkansas, will dissolve this absolute labor power within our borders and on the high seas, if passed. "It will end the unfair practice of industry-wide bargaining. It will do more to halt the inflationary wage spiral than any act of Congress in recent years." However, "If Senator McClellan's bill is blocked by the powerful and well-financed Washington labor boss lobby, everything on wheels, except the railroads, will be subject to even tighter Hoffa-Bridges control for years to come."\*

\*(L. F. Reardon, Vice-President, The Manion Forum, March 2, 1962)

ACTION: Thank Senator John McClellan for his bill S. 2573. Bring great pressure on your Senators and Congressmen to push this bill through. WRITE also to Senator Barry Goldwater and Senator Everett Dirksen of the Senate Labor & Public Welfare Committee, Washington 25, D.C. ALERT your friends and publicize our danger. TIME IS SHORT AND THE EMERGENCY IS GREAT.

## WE CAN'T AFFORD TO BUY WORTHLESS U. N. BONDS!

President Kennedy has asked Congress for authority to buy half of the proposed United Nations \$200 million bond issue. By its vote, Congress has a unique opportunity to express its opinion as to whether the United States should allow itself to become further involved with this insolvent organization. Let us hope that other Congressmen agree with Senator Aiken of Vermont, who describes Kennedy's bond proposal as a "hold-up of the United States" and an attempt to make this country "pick up Russia's tab", inasmuch as Russia and other Communist dominated countries have refused to pay their assessed cost of the United Nations Congo and Gaza Strip military operations.

The United States Treasury is already over-extended. It isn't fair to the American taxpayer to compel him to pay other countries' debts or to borrow money at 4% interest and loan it to the U. N. at 2%. There is no assurance that the bonds can ever be repaid. We should be getting out of the Communist-dominated United Nations trap-- not supporting it.

WRITE AND CONTINUE WRITING to Hon. Thomas E. Morgan, Chairman of the House Foreign Affairs Committee; the Hon. Clarence Cannon, Chairman of the House Appropriations Committee; and the Hon. Harry Flood Byrd, Chairman of the Senate Finance Committee. Write also to your Senators and Representative. Urge these men to refuse any money for the purchase of the worthless bonds. DEMAND, instead, that they strongly support Congressman James Utt's bill 9567, providing for our immediate withdrawal from the U.N.

# THE DREAD UNESCO TREATY HAS BEEN RATIFIED

The "Convention Against Discrimination in Education" has been ratified by three nations; France, Israel and the Central African Republic. Its ratification has come with shocking suddenness for, instead of the usual ten or twenty signatures required for most treaties, this one required only three! Since ratification this UNESCO Treaty has attained full legal status. It will be "in force" for the three signatory countries in approximately three months, as set forth in Article 14 of the document.

1. "This convention shall enter 'into force' three months after the date of the deposit of the third instrument of ratification, acceptance, but only with respect to those states which have deposited their respective instruments on or before that date."
2. "It shall enter into force with respect to any other state three months after the deposit of its instrument of ratification, acceptance, or accession."

The first of the above paragraphs describes the situation of France, Israel and the Central African Republic. The second paragraph tells us that the Treaty will not be "in force" for the United States as long as our SENATE REFUSES TO RATIFY IT. Though we helped draft and approve the proposed Convention (treaty) with the help of 10 Communist countries, and technically are morally obligated to ratify it, HOW CAN WE BE MORALLY OBLIGATED TO RATIFY A PROPOSAL WHICH IS IMMORAL?

Its ratification also would give the United Nations a LEGAL BREAKTHROUGH toward its goal of defining the rights of individuals and of placing individual Americans under international law subject to trial and punishment by U.N. Criminal Courts. Overnight United Nations police from any member country could be billeted in our towns, enforcing unwelcome decisions of the World Court, just as is now being done in the Congo. Also with ratification of the treaty, OWNERSHIP OF PROPERTY WOULD BE ILLEGAL. The clever U.N.ers have conspired to use it as a legal breakthrough to place the United States on LEGAL RECORD as accepting the phrase, "economic condition" for the word "property", thus it rejects the concept that property is a right in all free countries.

Another result of the ratification of the Treaty by our Senate or of the Recommendation, (described below), by a joint House-Senate Resolution, would deliver the entire American educational system of teacher-training, curricula, buildings, etc., to international control. It would force private and religious schools to conform or close. There would be no teaching of patriotism, loyalty or good morals. It would police and apply a national educational policy and would require periodic reports to be sent to UNESCO. Any dispute raised by another Nation concerning the Educational system of the United States "shall, at the request of any one of the parties to the dispute, be referred to the International Court of Justice, (World Court) for decision, unless they agree to another mode of settlement."

THERE ARE TWO METHODS OF RATIFICATION OF THE TREATY: EACH WOULD PRODUCE THE SAME END RESULT.

Even if our Senators should remain on guard day and night for the next weeks, months and years and successfully prevent ratification of the Treaty, there is also a UNESCO "Recommendation against Discrimination in Education", which can be adopted by a joint House-Senate Resolution needing only a simple majority for passage, after which it becomes the LAW OF THE LAND, upon the signature of the President. With the adoption of the "Recommendation" the implementation of the above would be slower but the end result would be the same. (Florence Fowler Lyons Report, 6/16/61)

WRITE TO -- your Senators and remind them that they are in Washington to represent a Christian electorate. DEMAND that they fight the ratification of this overwhelmingly dangerous and immoral Treaty. Ask that they work for a Constitutional amendment to seal off the loophole in our Constitution which allows treaties to supercede it.

NEVER STOP WRITING. REMEMBER THE POLICE STATES OF ESTHONIA, LATVIA, LITHUANIA, ROMANIA, CZECHOSLOVAKIA, HUNGARY AND THE OTHERS.

EXHAUSTIVE AND SEARCHING INVESTIGATION INTO THE STATE DEPARTMENT IS LONG OVERDUE!

Difficulties in cleaning out the deadwood, excessive staff and security risks in the swollen State Department may seem insuperable, as most are protected by the Foreign Service Act, the Civil Service Act and the Veterans' Acts. However, security risks can be dismissed. Security risks are those who drink to excess, talk too much, are emotionally and physically unstable and those with questionable affiliations. There is something rotten in the State Department or we would not have lost the Chinese mainland and Cuba to the Reds. The same men responsible for the China and Cuba decisions are now advising our action in Viet Nam, Algeria, the Congo and elsewhere. The American people would like to know why the following men are still active in State Department business ---

Roy A. Rubottom Jr. William Wieland John Stewart Service Dr. J. Robert Oppenheimer  
J. Clayton Miller Owen Lattimore Lauchlin B. Currie Dr. James R. Killian  
Dr. Milton Eisenhower should tell us about William Wieland and the Cuban fiasco.

There are many great men, former Ambassadors, an Assistant Secretary of the State, etc. who are well qualified to give testimony concerning security risks in the State Department. The public has a right to the truth. The hearings must be open!

H.R. 512, introduced by Rep. Richard L. Roudebush, authorizes the Committee on Foreign Relations to investigate the policy making procedures, methods and personnel practices of the Department of State.

ACTION -- Write again and again to your Congressman and Senators and demand an investigation of this powerful department of government.  
WRITE TO Hon. Howard W. Smith, Chairman of the House Rules Committee to get this bill out of Committee. Write also to Hon. E. Ross Adair of the House Foreign Affairs Committee, House Office Bldg., Washington 25, D.C.

CENSORING OF MILITARY SPEECHES CONTINUES WHILE THOSE RESPONSIBLE ARE PROTECTED!

The controversy over censorship is a grave matter. President Kennedy's Executive directive has been effective in concealing those responsible. A few examples of blue-penciling follow ---

1. "WAR" crossed off. Censor explains, "war is a dirty word".
2. "CONFLICT" blue-penciled. Censor wrote, "Use a softer term".
3. "BIG LIE TECHNIQUES" changed to "propaganda techniques".
4. "TO BEAT THE COMMUNIST CHALLENGE" rewritten to read, "the threat of foreign aggressors".

Senator Strom Thurmond's findings in this Stennis Committee investigation are not getting through to the public. A "SOFT ON COMMUNISM" policy has very evidently been laid down at high levels in the State Department.

ACTION -- Encourage and thank Sen. Strom Thurmond for his magnificent efforts to smoke out those responsible. MANY MORE LETTERS must flood Attorney General Robert Kennedy, Department of Justice, and members of the Senate Armed Service Committee. WRITE TO:

GOVERNMENT ENCROACHMENT ON PRIVATE INCOME UNFAIR AND UNWARRANTED!

Legislation for a withholding tax on dividends and interest, which will take one-fifth of the small incomes of millions of Americans who need this for their daily living, is completely outrageous. If this legislation passes, another multitude of federal employees will be needed, increasing again the cost of government. Savings Banks and businesses will be compelled to enlarge their staffs to handle the mountain of paper work involved. Errors in government estimates will have to be legally proved by the tax-payer, necessitating lawyer's fees. The citizen is assumed to be guilty until he can prove otherwise!
